

**SWAGTRON®**

# 2in1 Child Walker BALANCE BIKE AND SCOOTER

**MEETS ASTM F963 STANDARDS**

#### **SWAGTRON: 2-in-1 Child Walker Balance Bike & Scooter**

Ride any way you want with the K2 Child Walker. Whether you're in the mood to ride a kick scooter, or a ride a tricycle, the K2 scooter can get you there. Featuring a durable frame, adjustable stem, and a tricycle design, the K2 Child Walker is the ride you need to have fun!

#### **Transforms!**

With just a twist of the handle the K2 Child Walker easily transforms from a kick scooter to a tricycle that you can ride with ease. To transform, simply twist, and listen for the clicking sound to indicate that it has been locked.

#### **3 Wheel Design**

The K2 features a tricycle design that provides more stability than a conventional bicycle. 2 rear wheels help your child ride with perfect balance everytime.

#### **Adjustable Stem**

Adjust your child walker to match your child's height with an adjustable locking stem. Simply press in on the ball bearing and move the stem up and down until it matches your child's height.

#### **For Small Children**

The K2 Child Walker is great for kids both large and small, and designed to hold kids up to 44 lbs.

#### **Durable Frame**

The K2 features a durable carbon steel frame made using lightweight materials so that can stand up to playtime from tots.
