

# P A L M

## The Device Marketing team Introduces the Palm to the Product Line up! Palm will be available in all channels beginning November 2, 2018.

### Positioning Statement

A Verizon exclusive, Palm revolutionizes the way you connect with the world around you. Ultra-portable and packed with premium features, it goes places your smartphone can't. Clip it to your armband. Slip into a fashionable wallet case. Or show it off with a fancy wristlet. The Palm is small in size but huge on style. And you can unleash Palm's full potential with Verizon, the nation's largest and most reliable 4G LTE network.

### Key Selling Points

#### The world in your Palm.

Your digital life now fits in the palm of your hand. Palm is super smart, not supersized. Enjoy a stunning display, 12MP rear-facing camera and a full suite of Android apps—all in an ultra-mobile connected device that's about the size of a credit card.

#### Leave your phone behind.

NumberShare syncs your Palm with your primary phone, enabling you to receive texts, alerts and phone calls. Stay fully connected to your digital life, even when you leave phone behind -- track your runs, post to social media and respond to calls, emails and texts.

#### Live in the moment.

Never miss out on the world around you. Life Mode is a unique Palm feature that lets you stay connected while minimizing digital distractions. It puts you in control of what gets your attention so you can stay connected and present in the moment.

#### Not just smaller. It's smarter, too.

Palm's unique interface is built for smarter, faster action. Using voice activation, quick actions and the Gesture Pad, you can launch your favorite app, start a timer, play music, schedule a meeting and more.

#### Made to be accessorized.

One device, many looks. Dress your Palm up or down depending on the occasion. Slip it into a fashionable folio case for a night on the town, clip it to your armband while working out or attach it to a sleek wristlet before your next coffee run.

\*NumberShare allows you to make and receive calls using one shared number across your NumberShare capable Verizon LTE devices.

\* Terms apply: [www.verizonwireless.com/support/numbershare-legal/](http://www.verizonwireless.com/support/numbershare-legal/)

For best messaging experience iPhone users should turn iMessage off on all Apple devices and install VZ messages on their iPhone.

IP68-rated to withstand dust, dirt and sand, and resistant to submersion up to a maximum depth of up to 5 feet of water for up to 30 minutes.

Compatible with all devices. Limitations apply to iOS users
