

VIVE Cosmos Elite

Headset Only

Unleash ultimate precision

External tracking. Precise movements. Elite performance for PC-VR gamers.

KSP

Crystal clear graphics

See the virtual world through a 2880×1700 combined pixel resolution—an 88% increase over the original VIVE. All-new LCD panels reduce the distance between pixels, minimizing the screen-door effect.

Flip-up design

Go easily between reality and virtual reality with the flip-up design—all without disrupting your VR journey.

Upgradable and compatible

Stay compatible with your current setup and gain future upgradability. VIVE Cosmos Elite Headset provides versatile compatibility with VIVE Base Stations 1.0 and SteamVR™ Base Stations 2.0, as well as all VIVE controllers and Valve Index Controllers.

- Base stations and controllers sold separately.

PRODUCT FEATURES

Designed for gamers

- **2880 × 1700 resolution**
 - Enjoy the highest VIVE visual resolution and minimized screen-door effects. See detail-packed worlds the way they're meant to be seen.
- **Sound that excites**
 - Rich stereo audio is integrated into on-ear, form-fitting headphones. Experience great sound during extended VR adventures.
- **Engineered for comfort**
 - A crown fit makes putting on the headset quick and easy. Suits a wide range of face shapes, vision types, and even fits over glasses.
- **Easy to clean**

- Made with easy-to-clean materials to simplify headset upkeep.
