

Portable Drone Battery Charging Station

Versatility is what we have in mind when designing the DroneMax A40. In addition to the DJI Phantom III and IV drone batteries, the DroneMax A40 will also be able to fast charge 3-cell and 4-cell batteries of most other mainstream drones, such as the DJI Mavic Pro, Yuneec Typhoon 4K, and the Yuneec Typhoon H. The DroneMax A40 features four (4) charging ports, each port can be customized to charge either a 3-cell or 4-cell drone battery. Just like the A40, all ports can be used to charge different drone batteries simultaneously for faster turnaround time, giving you more flying time enjoyment.

Features

- World's 1st portable drone battery charging station
- Customized for 3-cell batteries (DJI Mavic / Yuneec Typhoon 4K) and 4-cell batteries (DJI Phantom III series/ Phantom IV series/ Yuneec Typhoon H)
- Recharge a drone battery more than 4 times*
- Recharge 4 drone batteries simultaneously
- Dual USB ports for charging USB devices
- Portable and durable design
- Aluminum enclosure provides excellent heat dissipation

*All charging specifications and charging times are derived from testing done at lab environment and at room temperature of 25 degree C. Your charging time will vary depending on your charging environment and the ambient operating temperature.
