2. Instructions for Use

This product is plug-and-play and does not contain a built-in battery. It can be powered by connecting to a smartphone, tablet, or computer with DP output support via a USB-C cable, providing a large-screen viewing experience.

3. Wearing Instructions

It is recommended to fully unfold the temples and wear the glasses from the top of your head downward, keeping the cable behind your ears. The nose pads can be adjusted to ensure the display appears complete.

•Open the temples outward carefully. Do not forcibly bend them. Wear the glasses only after the temples are fully extended to avoid pinching your hands or hair.

02

4. Myopia Adjustment Method

•If the display appears too high or too low, gently squeeze the nose pads closer together or spread them outward to adjust the image position. Adjust slowly until the display is clear and complete.

03

VIZOEN

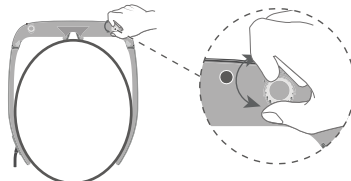

1. Connect the glasses to a device (smartphone/tablet/computer) with a USB-C port that supports DP output until the display appears on the screen.

2. Wear the glasses by unfolding the temples to a comfortable width and placing them from the top of your head downward.

3. View the display with one eye at a time, turning the corresponding myopia adjustment knob with your thumb or forefinger until the image becomes clear.

4. Repeat step 3 for the other eye until both views are clear.

5. If the image appears doubled or misaligned, cover the sunglass lenses with both hands and re-check the display, which may improve image fusion.

6. Precautions

1. Do not unplug the USB-C connector by pulling on the cable.

2. Do not squeeze the device during use or storage to avoid damage or deformation.

3. Keep the product clean and dry. Avoid rain, fire, dust, moisture, dirt, or strong magnetic fields.

4. Do not disassemble or modify the device or accessories; this voids the warranty.

5. If lenses become foggy or dirty, use a microfiber cloth to clean. Do not wipe forcefully or use alcohol, chemical solvents, or abrasive materials.

6. Avoid excessive pressure or vibration. Do not use in environments with extreme dust, temperature, or humidity fluctuations.

7. Do not store or use in environments that are excessively hot or cold.

8. Do not expose the product to direct sunlight for extended periods.

9. Using the glasses may reduce awareness of external warning sounds. Do not use while walking, cycling, or driving. Ensure your surroundings are safe.

10. Some users may experience dizziness, nausea, or palpitations while watching 3D content. If symptoms occur, stop using immediately.
