

Manual SRM Series

Manual Pull-down screen with built-in slow retract mechanism

Pre-Installation

1. Carefully unpack the screen.
2. Always handle the screen in a leveled position on a clean surface.

Note: Regardless of the mounting method, the screen should be securely supported so that when retracted, deployed, or even abusive pulling on the screen, the case will not become loose or fall. The installer must insure that the fasteners used are of adequate strength and suitable for the installation location.

Flush Mount to the Wall

1. Mark the location of where the screen is to be installed for the pre-drilled hole.
2. After marking the area and drilling the hole, insert the proper screw into the drilled hole and leave about 1/8" of an inch from the wall to mount the screen.
3. Mount your screen from the keyhole located on back of screen's left and right end cap.

Note: Do not remove the end caps to mount the screen to the wall. Removing the end caps will release the tension of the internal spring mechanism.

Ceiling Mounting (additional hardware required)

1. You can also hang the screen on a ceiling by using a chain (not included) and hang it by the two loops located on each end of the case.

✓ Note: **Always** pull the screen down or let it up in a 90-degree vertical angle. Do not allow the screen to touch the screen case when the screen goes up or comes down to avoid damaging the screen material.

1. Pull the screen down from the lanyard or from the handle only in a 90-degree angle. Do not attempt to pull the screen down by the surface or touch the screen, as it will damage the screen and void the warranty.

✓ Note: An internal auto-lock mechanism system will cause the screen to stop and lock on the position at intervals.

2. If you want the screen to retract back, simply pull the screen down more than 2 inches and retract the screen back by quickly and smoothly releasing it up gently. The screen is equipped with a **SLOW RETRACT MECHANISM (SRM)** which allows the screen to slowly retract without the need to hold on to the handle or lanyard. Simply release the handle and the screen will retract by itself.

✓ Note: Always release at a 90-degree angle and do not let go until the screen is entirely inside the case. If ever the screen feels stuck, keep in mind that the screen's mechanism is new and needs to be run up/down a few times to loosen up. If this happens, carefully with a little force yank the screen straight down to unlock the screen.

⚠ Note: Improperly bringing the screen up/down will damage the screen material or rolling system.

Maintenance

Clean matte white screen material with a soft cloth and mild soap with water. When not in use, retract screen in its housing to keep the screen material surface clean.

Dimension Table

Model	Nominal Diagonal & Aspect Ratio	Case Length (A)	Screen Width (A1)	View Width (A2)	Weight Bar Length (A3)	Bottom Edge Distance (B4)	Screen Material to Weight Bar Height (B3)	View Height (B1)	Overall Height (B)	End Cap Height (B5)	End Cap Width (C)	Distance from Screen material to wall (C1)

The listed measurements are for general reference only. Please contact Elite Screens to verify product design and dimensions before attempting to integrate its products with any structural or furniture modification. Although a manufacturer may offer product advice, it may be taken or disregarded at the integrator's discretion. Elite Screens will not be held responsible or be otherwise liable for faulty installations.

Warranty Policy

- Two (2) Year parts and labor warranty from defects in workmanship from purchase date as follows (except for refurbished units as specified below).
- Three (3) Year parts and labor warranty from defects in workmanship for GEMR (Government, Educational, Military, & Religious) purchases of new product only.
- Refurbished Units carry a 90-DAY parts and labor warranty.
- Each party will be responsible for one way shipping during the warranty period.
- A RMA (Return Merchandise Authorization) number must be issued in order to process a replacement or to authorize a return for warranty repair. Elite Screens will, at its sole option replace or repair the defective unit with a replacement *(see exceptions below) after the defective unit or parts have been received. Once the product is received, Elite Screens will send out a replacement *unit to the customer by ground service (subject to inventory availability).
- Do Not Return Any Unauthorized Items to Elite Screens, as they will be refused and returned at your expense. The RMA Number must be included on the outside label of your shipping box. Our warehouse is not authorized to accept returns without an RMA number on the shipping label.
- RMA Numbers are valid for 45 days from the date issued.
- Missing Parts must be reported within 7 days of receipt. If reported after 7 days, the customer will be responsible for shipping and handling fees. If reported after 30 days of receipt, the customer will be responsible for cost of parts and shipping & handling fees.

* A New or refurbished replacement will be send out to the customer depending on the type of purchase (new or refurbished) and based on stock availability.

North America only U.S. and Canada
