

# Video Doorbell

Stay connected to your front door from anywhere with a video doorbell that delivers smarter notifications.

## Best-In-Class Visibility

With 2K video through a 150° wide-angle lens, this doorbell ensures no detail goes unnoticed.

## Motion Detection

Get real-time alerts when motion is detected by your video doorbell.

## 2-way Talk

Engage in two-way communication through the myQ app at any time, no matter where you are.

## All Weather Reliability

From -4°F to 122°F, you can count on reliable performance in conditions from snow to sun.

## Color Night Vision

Enjoy a brilliant view no matter the time or lighting.

## Easy Setup

Install as a battery or wired solution—wired works with your existing chime.

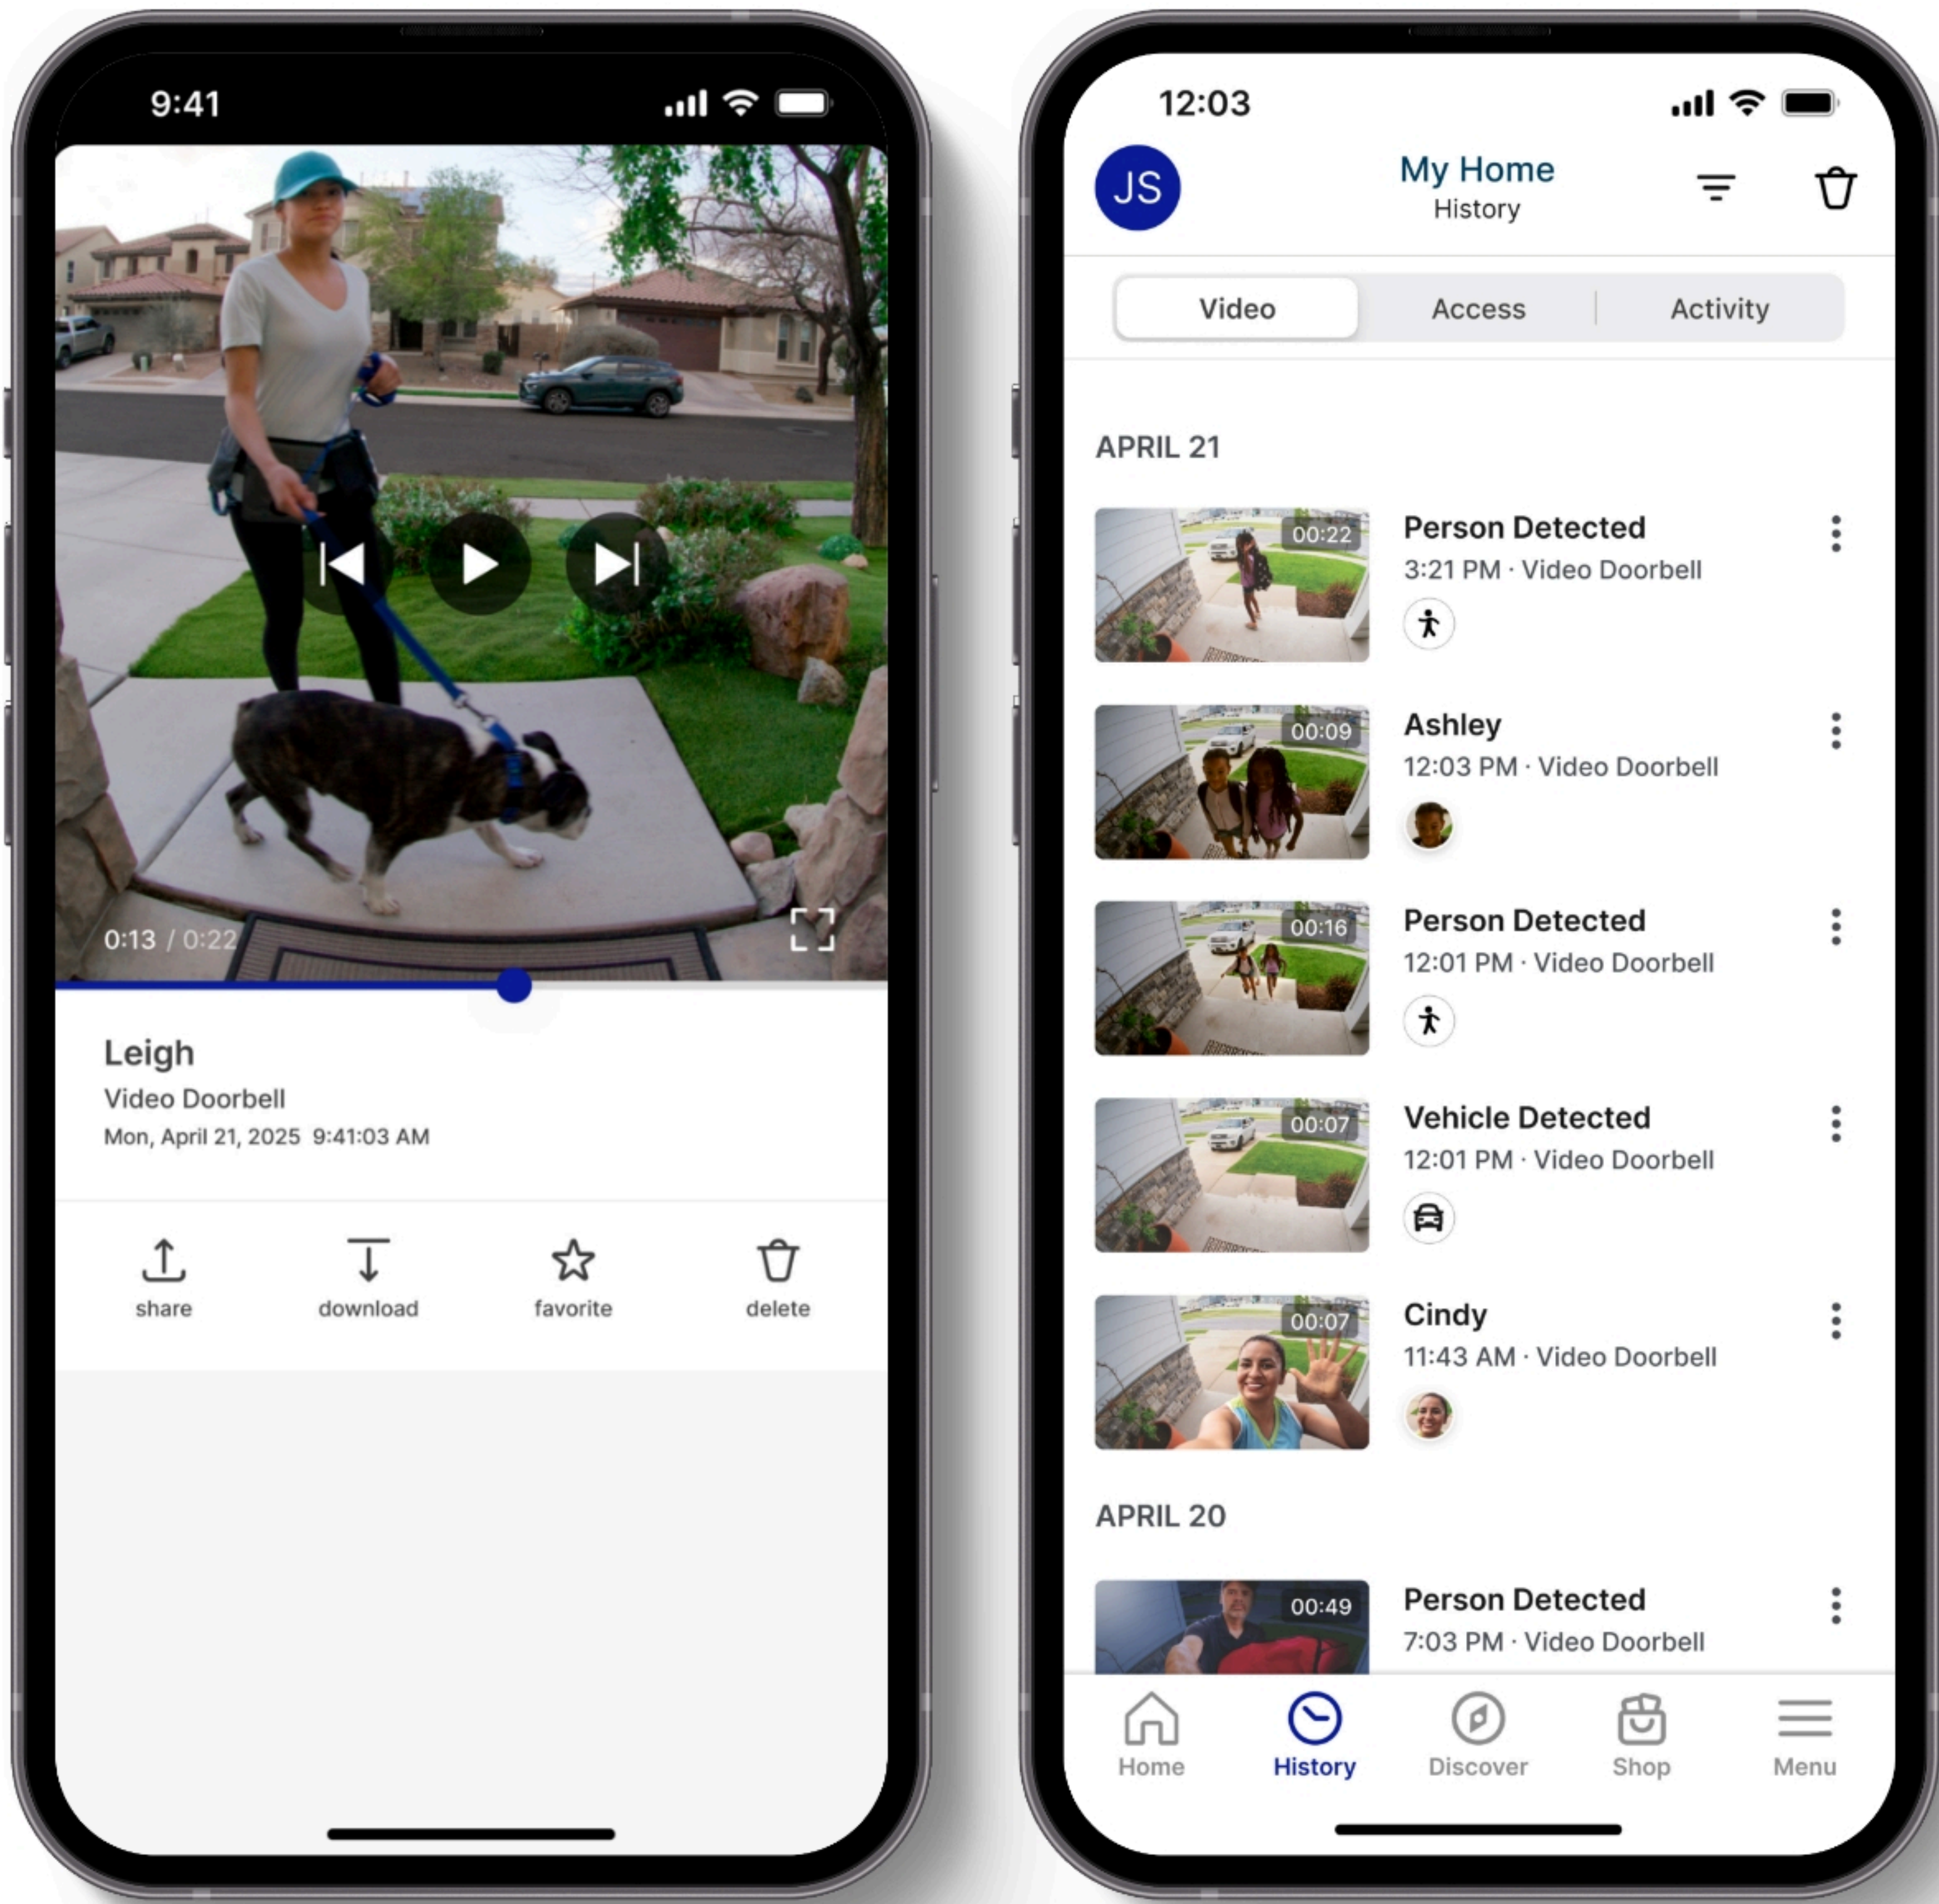

# Get 24/7 home visibility with a Video Monitoring Plan

myQ Video Monitoring helps you achieve peace of mind by providing line of sight to all activity in and around your home and property.

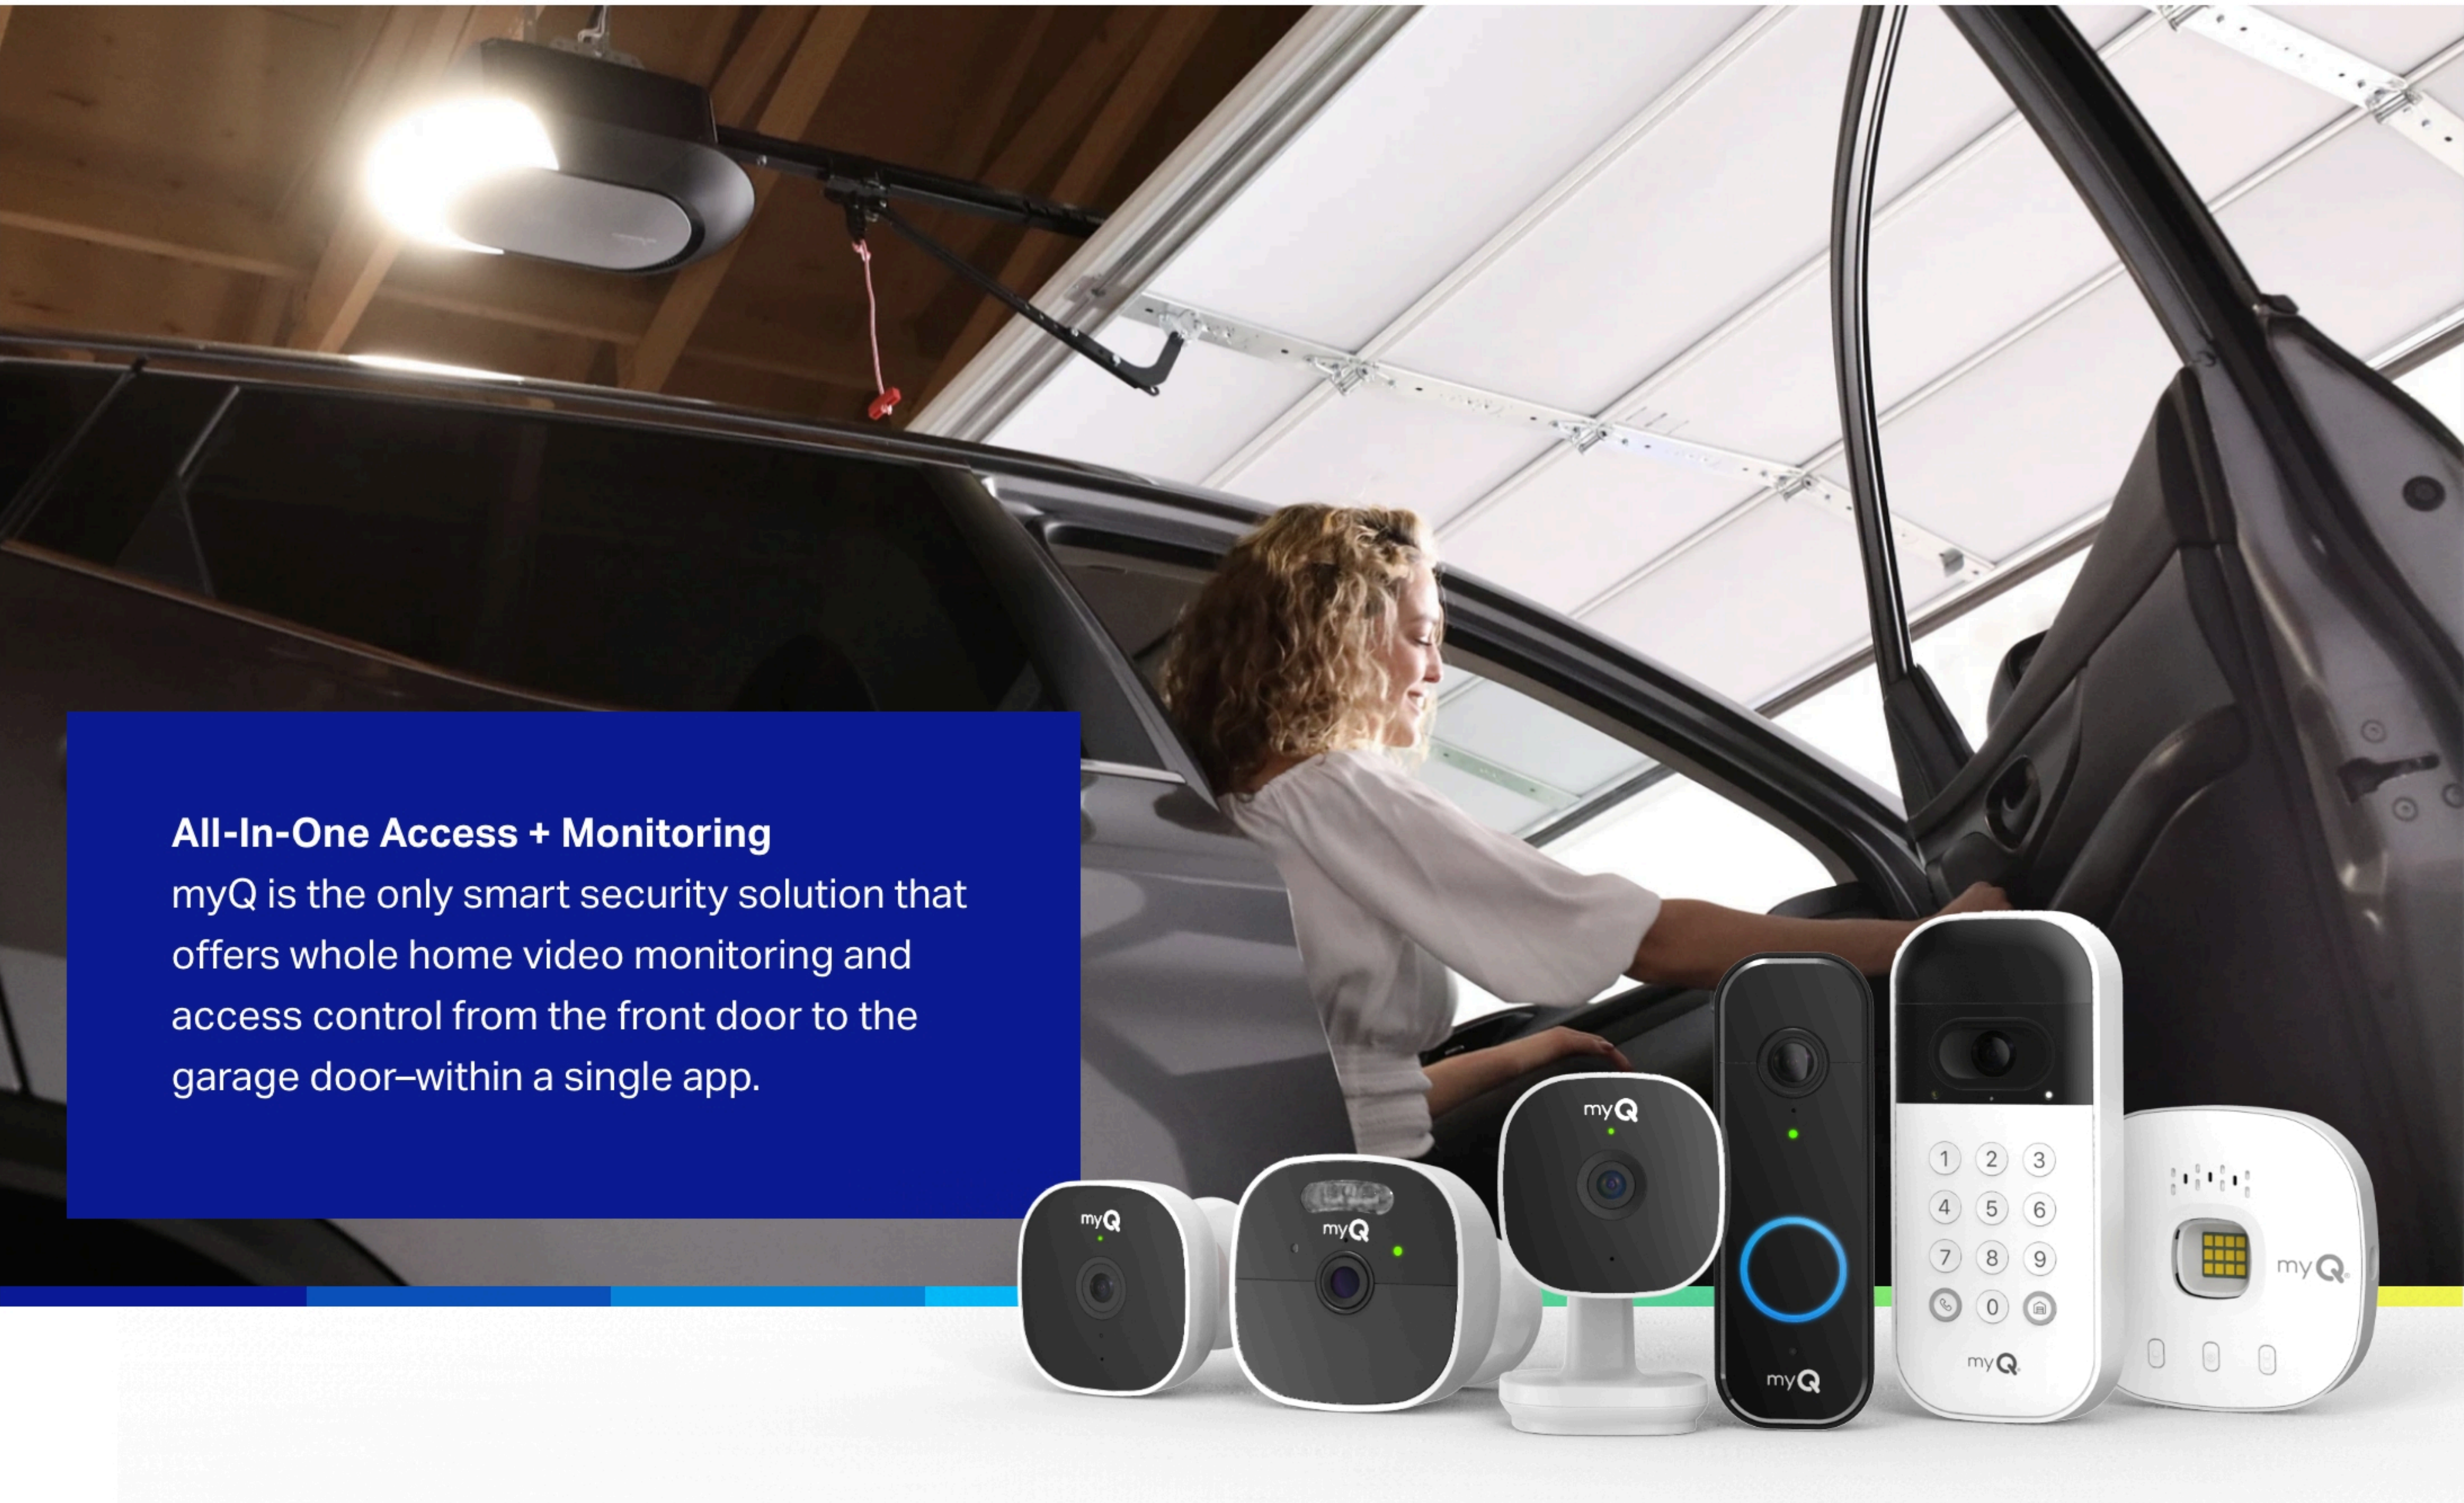

With features like video history, a suite of smart detection (face, person, animal, vehicle), and preview notifications, rest assured you're in the know on who's home, what's happening, and when.

Every myQ device includes a complimentary 30-day trial of the Video Monitoring Plan, giving you access to the full range of myQ features and benefits.

Try all premium features for free!

 myQ Smart Secure automation	 30 days of video history	 A suite of smart detection	 Preview notifications
