

NEW RELEASE - GX SUBWOOFERS

Introducing Phoenix Gold's new GX line of subwoofers, engineered for heart pounding performance and a breathtaking sound experience. The all new GX subwoofers feature advanced MLB and CFL³ technologies. Pair GX subwoofers with the new GX amplifiers and create an unbeatable combination of sound quality and dynamic performance.

KEY FEATURES

- **Dual Cone Design-** to strengthen the rigidity of the woofer's cone body to minimize the distortion while increasing the handling of high pressure produced in the subwoofer enclosure
- **Magnetic FEA High Efficiency Motor-** provides highest possible, efficient motor design
- **Thermal Efficient Design via Vented Motor-** providing better thermal efficiency, reduces motor compression and extended low frequency response
- **Reduced Motor Compression via Vented Motor**
- **Double Looped and Sleeved Lead Wires for High Excursion-** reduces wire roping and allows high excursion, increased flexibility and long life
- **Special Push Type Terminals with Short Prevention**
- **BEEF'ed Up- Bent Edge Enhanced Frame-** minimizes overall resonance and provides accurate sound with less distortion
- **Linear Surround Technology-** for high excursion
- **Black Anodized Voice Coil Former-** heat dissipation
- **CFL³ Technology Voice Coil-** 3x more structurally rigid, prolonging the life of voice coil
- **MLB Collar Technology-** enables micro level bonding with cone & spider for increased strength
- **Linear Long Throw Spider Suspension-** for increased output and power handling
- **Large 2.5" Voice Coil-** GX12D4, GX12D2, GX10D4, GX10D2 and **2" Voice Coil** for GX8D4, GX8D2
- **Removable Gasket for adding grills**
G112 (GX12D4 / GX12D2)
G110 (GX10D4 / GX10D2)
