BEOPLAY E8 2.0

KEY SELLING POINTS

CORD FREE, TRULY WIRELESS

Beoplay E8 2.0 are fitted with Qi wireless charging, making the product truly and totally wireless. E8 2.0 combine a subtle and elegant design you can grab and go with all the convenience, portability and hassle free experience of no wires. E8 2.0 are splash and dust resistant when you're out and about.

TOUCH INTERFACE GIVES YOU CONTROL OVER MUSIC, CALLS AND VOICE COMMANDS

With simple taps on the earphones you can switch between tracks, take calls, and activate transparency mode and voice commands – all without taking your smartphone out of your pocket.

UP TO 16 HOURS OF PLAYTIME WITH EASY RECHARGING ON THE GO

A truly wireless portable solution. E8 2.0's leather carrying case has been designed so you can take E8 2.0 with you everywhere and charge them on the go. The case features wireless charging (Qi), USB-C and holds three full charges, making it easier than ever to keep E8 2.0 playing.

LEATHER CASE FITTED WITH WIRELESS CHARGING AND A BEAUTIFUL BRUSHED ALUMINUM INLAY

The earphones fit perfectly into the leather wireless charging case where they are surrounded by a beautiful inlay of brushed aluminum. With a secure magnetic click, they stay in place.

RICH, AUTHENTIC BANG & OLUFSEN SIGNATURE SOUND

Tuned by acclaimed Bang & Olufsen sound engineers for an authentic, powerful sound experience, E8 2.0 are effortlessly high-tech. Packed with technology as DSP for sound tuning, equalization and gain, NFMI (Near Field Magnetic Induction) technology, a 5.7mm dynamic speaker, a small electronic transducer and B&O Tone Touch to adjust the sound profile), E8 2.0 deliver wireless Bang & Olufsen Signature Sound that will leave your ears wanting more.

And with the Beoplay App you can match the sound profile to your activity.

DESIGN PROFIL

Iconic, simple and very smart, Beoplay E8 2.0 work beautifully. Their clean expression blends effortlessly with Scandinavian aesthetics for a subtle and elegant design that you can grab and go. No fuss technology on the inside completes a seamless and intuitive experience.

To ensure optimum fit, the angle of the driver tube has been carefully designed to ensure optimal friction between the polymer and the ear and thus facilitate a more secure fit and make sure that Beoplay E8 2.0 sit comfortably and securely in the ear.

The inner shape has been ergonomically designed to ensure great fit and comfortable long-term usage.

NFMI technology were utilized to get all the technology available to E8 2.0 into its small space. Iteration upon iteration was implemented to strike the perfect balance between performance and ergonomics.

CONFIDENTIAL

SOUND

RICH, BANG & OLUFSEN SIGNATURE SOUND

The challenge when engineering earphones is always to strike the balance between the size, ergonomics and the sound quality.

With Beoplay E8 2.0 we were determined to deliver a sound profile which is the best in the category. In other words, sound which is as natural as possible, and, as with all our products, delivers Bang & Olufsen Signature Sound.

Beoplay E8 2.0 has a 5.7mm dynamic speaker, a small electromagnetic transducer, and a Bluetooth chip with DSP (Digital Signal Processor), which allows sound tuning (equalization and gain). We strived for the best possible materials, and then improved its performance with further tuning.

Because the quality of sound delivery with earphones is hugely impacted by the seal the ear tips make in the ear canal (bad seals can destroy bass delivery), it was imperative that we ensured a great seal. Beoplay E8 2.0 ear tips seal the ear canal from environmental distractions, and the precise, optimal fit channels sound directly into the ear canal to transform your listening experience.

Furthermore, heat activated memory foam in E8 2.0's Comply™ Sport Pro 200-Series ear tips expand to unique ear canal shape, creating a custom, secure fit for amazing in-ear retention and a better sound experience.

No listening fatigue

Listening fatigue is a phenomenon where you get tired of listening - it's usually caused by a ringing bass, a hard upper midrange or too much treble.

All B&O earphones feature a sound that you can listen to for long periods without getting tired.

CONFIDENTIAL

TARGET AUDIENCE

CREATIVE CURATORS

E8 2.0 are for those who strive to be free and think freely, who see music listening activities as a supplement to other things in the everyday. They may want to enable focus at work, but also to block out the busy world. With demanding jobs, music can play an important role during work time, but also help to relax and recharge in order to be able return to work with renewed focus.

Our target audience care about the things that surround them and choose products carefully. They seek out the latest technology but require it to go together with good design. Listening to music in the everyday must be an undemanding action. Hence, convenience and stability are important factors.

E8 2.0 target audience are split up into distinctive segments every one of which we cater for:

With E8 2.0's lifestyle approach to true wireless, we cater for the **Design Seekers**, design-focused consumers who have confidence in their aesthetic taste and are on a continual search for inspiring purchases.

B&O's strong brand and E8 2.0's luxurious appearance allows the **Proud Achievers** to reward themselves with a premium best-in-market product as well as communicating their success to others through their purchases.

With best-in-class sound, E8 2.0 talk to the **Tech Navigators** who are adept researchers - this group of consumers seeks to purchase technical solutions which fit their precisely defined needs.

CAMPAIGN DIRECTION

BEOPLAY E8 2.0

UPGRADE TO WIRELESS CHARGING

MARKETING CAMPAIGN

BEOPLAY E8 2.0

WHAT'S THE STORY?

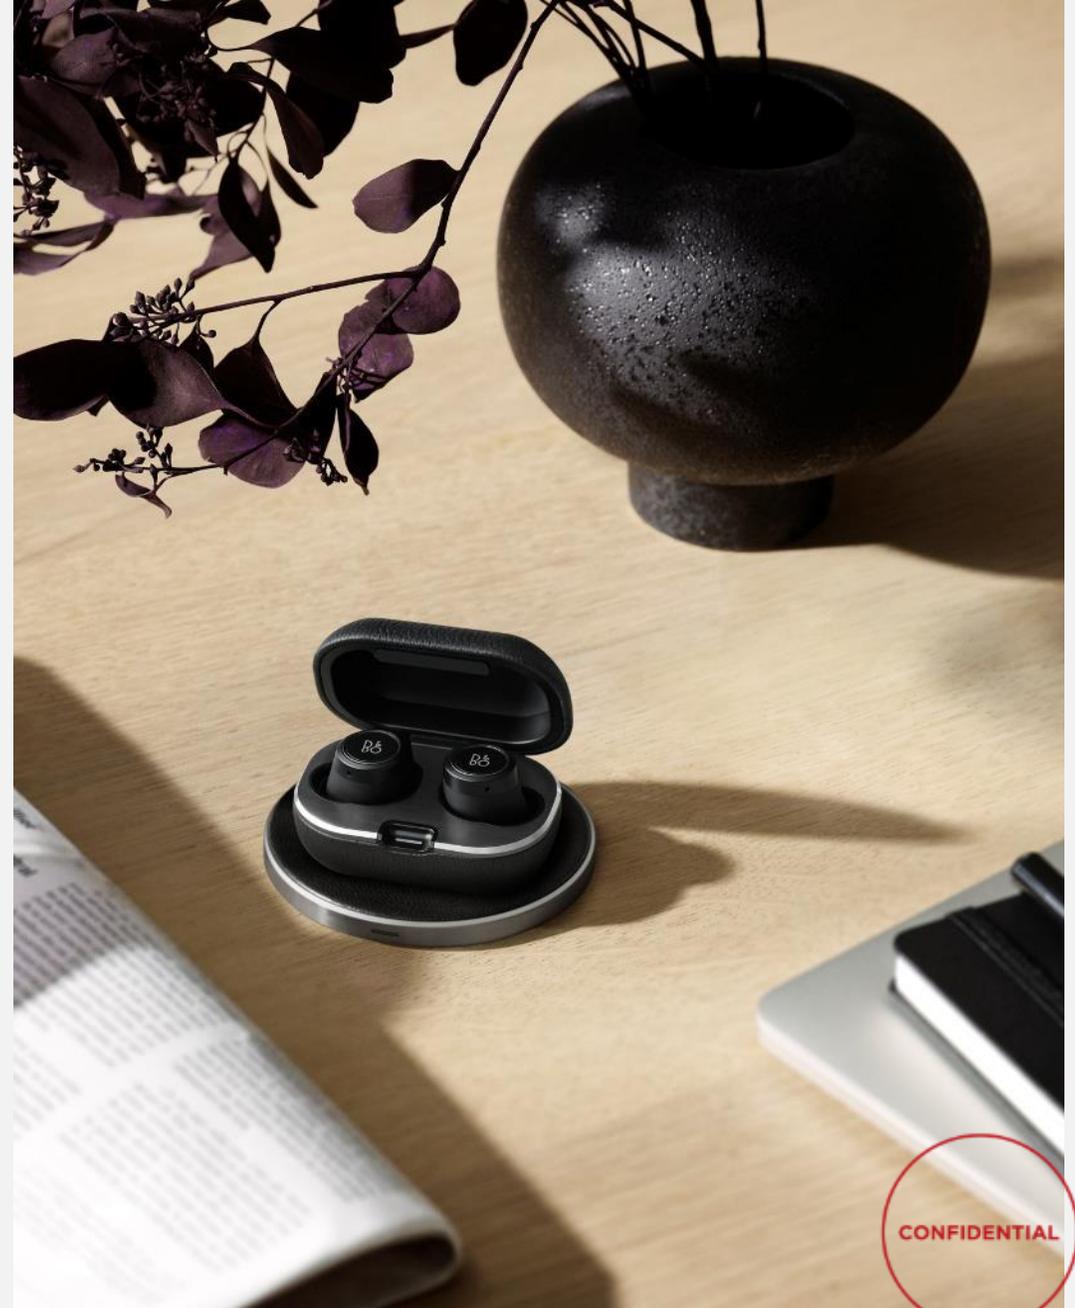

Beoplay E8 2.0

Upgrade to wireless charging

Our society is always switched on and being connected has never seemed more important. Until now, that's meant being physically linked and wired up to your device.

With Beoplay E8, you got the freedom and convenience of truly wireless earphones without compromising on looks or design. Upgrading to E8 2.0, you are not only upgrading to a superior sound experience and at the same time making a bold style and technology statement. The true upgrade on the E8 2.0 is giving you the freedom of wireless charging, just place the E8 2.0 case on a wireless charging pad at home, in the office or in many of the public places such as cafés and airports, where they become more and more common.

No need to bring a cord with you.

CONFIDENTIAL

MARKETING CAMPAIGN

BEOPLAY E8 2.0 – *UPGRADE TO WIRELESS*

HOW DO WE TELL IT?

We build on the E8 campaign story being the first mover with a fashionable approach in the true wireless category. Make true wireless cool and desirable to our target for the first time by leading with a simple, iconic, fashionable approach that's unique and own-able.

We will present the earphones and the case in a jewelry-like, sophisticated fashion context in relevant user scenarios: at the office, in creative environments and in a home environment.

There will also be images where the product is placed on the new Beoplay charging pad, to communicate the functionality.
