1 Carrier service required. Product features subject to change. Features based on carrier program.

2 To experience T-Mobile HD Voice, both callers must have a compatible HD Voice capable smartphone and make the call over T-Mobile's LTE Network or a compatible network. T-Mobile's LTE coverage is not equivalent to its overall network coverage. HD Voice calls made on a compatible device and on the LTE network may not experience an HD Voice connection at times of network congestion. Other carriers' networks may interfere with T-Mobile's LTE network to support an HD Voice call.
