

## Study. Stream. Share. On a single charge.

Between home, school, and work – your mobile life demands a laptop that just doesn't quit. With a long battery life, the HP Stream does everything your smartphone can't. Post, play, and stay productive all day with the familiarity of a Windows laptop that's affordable, portable and incredibly stylish.

### Extremely portable. Expressive design.

Live your best life on-the-go and in style with a slim, expressive design. With its smooth finish and vertical brushed pattern, find the HP Stream that perfectly fits your personality.

### More features. More value.

With an AMD processor and long battery life<sup>[1]</sup>, work or binge-watch your favorite shows – all while staying under budget. Plus, stay connected with fast Wi-Fi, storage options, and all the ports you need.

### Windows built for security

Experience peace of mind that comes with Windows built for security. Designed to run powerful Windows store apps exclusively – you can do it all with Microsoft Edge, Bing Search, Windows Defender and so much more.

## Featuring

### Windows 10 in S Mode

Experience the most secure Windows ever built. With fast boot times, increased responsiveness, and added protection against phishing and malicious software, applications run more smoothly. <sup>[2]</sup>

### Rock-solid connections

Never worry about spotty Internet and weak connections. Stay powerfully connected to Wi-Fi and to Bluetooth® accessories with the latest 802.11 a/c (2x2) WLAN adapter and Bluetooth® 4.2. <sup>[3]</sup>

### AMD Radeon™ R3 graphics

Whether it's games or movies, experience high performance for all your entertainment.

### AMD A4 Dual-Core Processor

Get the lightning-fast speed you need for all your day-to-day tasks. Dual-core performance lets you work with multiple applications at once and play the latest games without experiencing crippling slowdowns. <sup>[4]</sup>

### Dual front-facing speakers

Pump up the volume to your favorite music, movie or game. When your audio is directed towards you, nothing comes between you and your entertainment.

## Specifications

<b>Operating system</b>	Windows 10 Home in S mode

## Messaging Footnotes

[1] Windows 10/ MM14 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See [www.bapco.com](http://www.bapco.com) for additional details.

[2] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.microsoft.com>. Windows 10 in S Mode works exclusively with apps from the Microsoft Store within Windows. Certain default settings, features, and apps cannot be changed. Some accessories and apps compatible with Windows 10 may not work (including some antivirus, PDF Writers, driver utilities and accessibility apps) and performance may vary, even if you switch to Windows 10 Home configuration (fee may apply). You can't switch back to Windows 10 in S Mode. Learn more at [Windows.com/Windows10SFAQ](http://Windows.com/Windows10SFAQ).

[3] Availability of public wireless access points limited. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the laptop to communicate with other 802.11ac WLAN devices. Bluetooth® is a trademark owned by its proprietor and used by HP Inc. under license.

[4] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed.

## Technical Specifications Footnotes

[6] Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed.

[7] Max Boost clock frequency performance varies depending on hardware, software and overall system configuration.
