

MANTIS Q X-PACK

NEW VERSION

The Mantis Q X-Pack version!

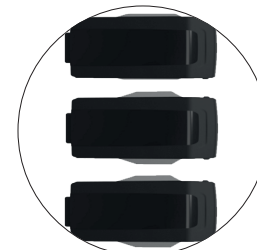

Three batteries, photo bag, propeller protector and a car charge adapter: With the X Pack Lite you are well equipped for your next adventure. The foldable quadcopter is the perfect travel companion thanks to its handy size and the practical photo bag and can be easily recharged in the car with the car charger cable when travelling. Thanks to the second battery you can keep on flying while one of your Mantis batteries is charging. The propeller protector ensures optimum protection for smaller crashes and bumps. Otherwise, a set of spare rotor blades including screws is also included.
