

## It's time to make the outdoors more entertaining.

For many of us, the warm spring and summer months are all too short, so getting the most out of them is important. That's why there's no better time than right now to outfit your yard, patio, deck or pool area with amazing outdoor gear. Start with a free consultation from a Best Buy® Home Expert. They'll show you how to bring your outdoor spaces to life with the latest outdoor audio and video products, cooking and grilling gear, furniture and even smart solutions.

Ready to bring more fun to your outdoor spaces? Let's get started. Schedule a FREE consultation with a Home Expert, or check out our [outdoor living](#) page.

## Great sights for the great outdoors.

While drive-in movies are pretty much a thing of the past, the experience of enjoying family-and-friends time outdoors doesn't need to be. For a fairly simple and cost-effective way to bring the movies outside, a Home Expert can help you find the right [portable projector](#) to fit your space, and meet your quality requirements and budget. With built-in smart capabilities in some units, you can stream your favorite shows or movies from your favorite streaming services. Others offer HDMI ports for Chromecast, a Fire TV Stick or Roku that allow you to do the same. Add a portable projector screen and you're ready for movie night.

Want a more permanent solution for watching the Big Game, TV shows or movies day or night? With [outdoor TVs](#), you get amazing picture quality when and where you want it, because these TVs are built for the outdoors. Whether it's the sun's glare, salt, heat, cold, water, bugs—all of these would destroy a regular TV. Thankfully, Best Buy offers a host of outdoor TVs that range in size and functionality, from shaded areas to full sun areas, so the glare and elements won't affect them one bit. Add the right audio solution and—boom—you have an outdoor movie-going or game-watching experience that rivals many indoor systems.

## Bring great sound outdoors.

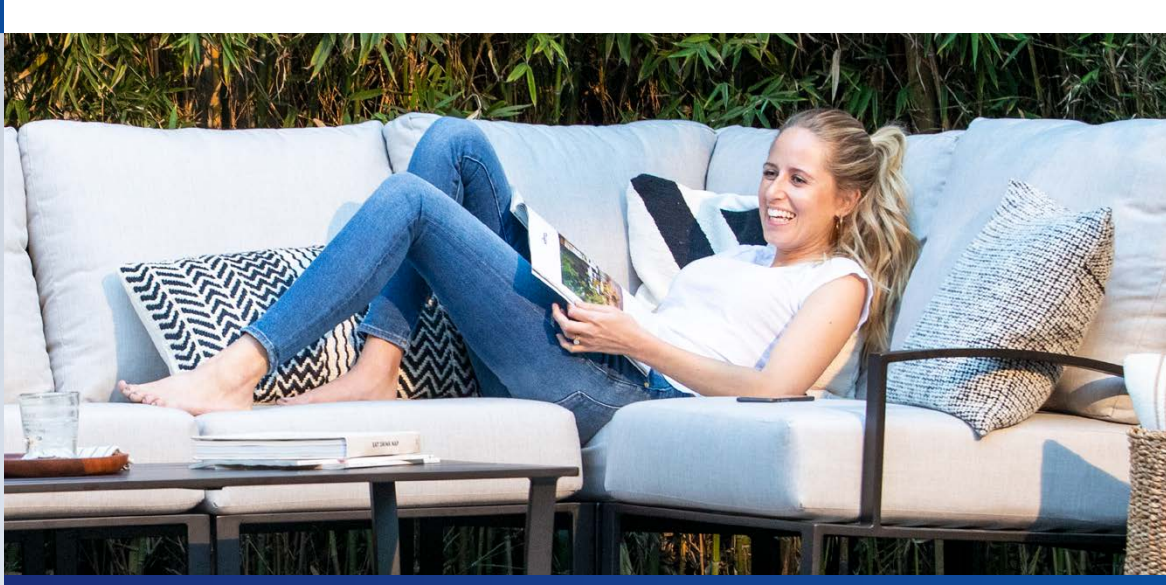

There's nothing like the sounds of spring; the birds chirping, the leaves rustling in the wind, nature coming to life. Add your own sounds to the season with incredible [outdoor audio gear](#).

Want to surround your yard in pristine sound? [Sonance](#) and [Martin Logan](#) make audio systems that use smaller speakers that you place throughout your yard to bring even, quality sound to any outdoor space. With their petite profile, these speakers can be hidden throughout your yard's foliage, so all you hear is great sound, and all you see is nature. These systems also come with subwoofers that get buried into the ground to deliver the desired bass many of us love.

Best Buy also offers more traditional outdoor audio solutions with speakers you mount to your deck, patio or pergola that provide these individual spaces with quality sound. You can even try to hide your music in a "rock-style" speaker: work them into your landscape design and they really do disappear.

Looking for more portable options? If you're a Sonos user, the [Sonos Move and Roam](#) are excellent outdoor options. These simple, wireless speakers not only give you great sound outside, they pair with the rest of your Sonos speakers, so, as you move from indoors to out, you can hear the same music, creating a great party atmosphere. Best Buy also has a host of other wireless speakers, some waterproof, great for poolside or at the lake.

Big, small, portable or built-in, no matter your need, with an outdoor consultation, we'll help you explore the possibilities, price points and sound quality that fits your space and your desires.

## Relax under the sun.

Outdoor sectionals, chairs, and umbrellas make being outside, and staying outside, a joy. With amazing outdoor brands like [Yardbird](#), Sun Ray, Walker Edison, and Flash Furniture, we have the styles, colors and designs to fit nearly any outdoor space.

And because those spring evenings can get rather chilly, Best Buy also offers a host of [outdoor heating options](#) to keep you warm. Experience an assortment of heaters, fire pits, fire pit tables and built-in space heaters. No matter the temperature, you'll be comfortable enjoying your time outside.

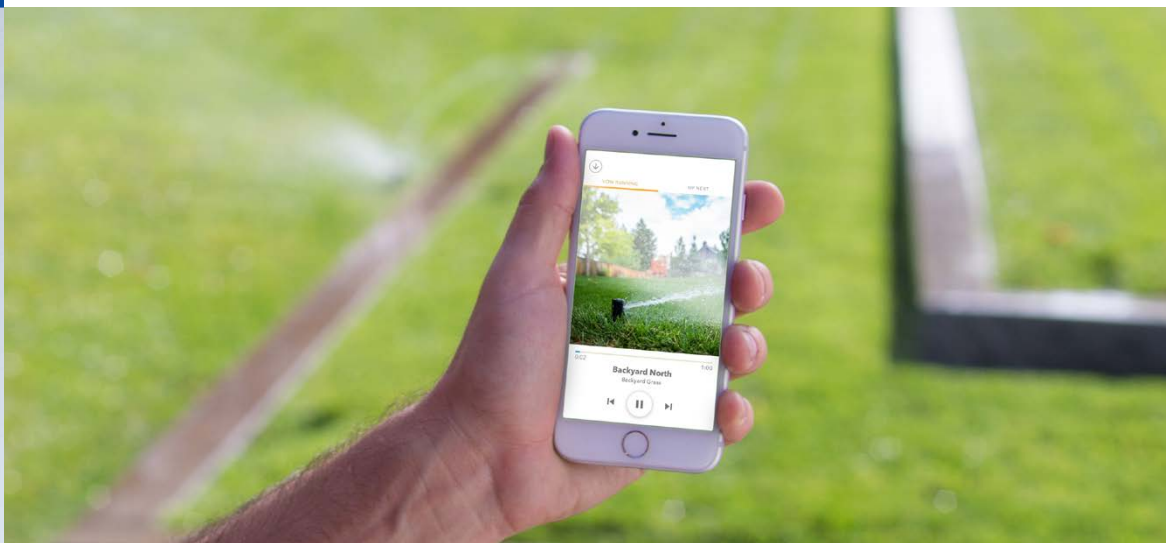

Whether you're gathering with friends or just sunbathing, a Home Expert will make sure you get the right outdoor furniture for you.

## Dining al fresco.

[Cook up the perfect meal outdoors](#) with grills from the most sought-after brands like Weber or Traegar—oh yeah, Best Buy offers those. Want to take it a step further? Outdoor kitchens are also an option. Built-in units expand your options from flipping burgers to creating a chef's outdoor paradise.

Did someone say pizza? [Ooni](#) did. For that flame-grilled taste, Ooni and others offer not only an amazing looking outdoor pizza oven, but a tasty one as well. Family pizza night just got a lot more fun.

## Smart outdoor solutions.

Whether you're new to the smart home world, or a veteran of these simple-to-control solutions, the great outdoors offer some unique opportunities for [smart control](#). Using a complete home smart control app like Savant, you can have access with your voice, smartphone or tablet to control all the tech you have outside; including your sprinkler system and pool. That's right, you can put select sprinkler systems in the palm of your hand, controlling when they turn on and off. Want to heat your pool or run your automated pool cleaner? Select the times and dates. Fountains, outdoor security gates, outdoor cameras and lights can all be controlled with your smart home system, giving you direct access to them and their content whether you're home or thousands of miles away.

All of this is especially helpful if you have a summer home you only use a few times a year. Before you leave to enjoy your time at this home, adjust the air conditioning to a more comfortable temperature, turn the pool heater on, turn on select lights and have music playing to welcome you the moment you walk in the door. The options are nearly endless and incredibly convenient. A Home Expert can help you discover the solutions that are best for you and your home.

From TVs and speakers, to patio furniture and grills, Best Buy will help you create the ultimate outdoor living space. With a FREE outdoor consultation, we'll help you find the right products and solutions, measure your space to make sure it all fits, even coordinate the delivery and installation. Your home entertainment is about to grow by one giant room: the outdoors.
