Receive ATSC and QAM:

ATSC digital TV is free HD TV for North America

WinTV-dualHD: A dual digital HD TV tuner for your Plex Media Server!

For Plex Pass users, Plex DVR lets you record your favorite TV shows and stream them to all of your screens, anytime, anywhere.

Dual tuners

Watch one channel while recording another. Plex DVR allows you to record two TV programs at the same time. Or have picture-in-picture or two complete TV windows with the included WinTV v8 application for Windows.

ATSC over-the-air HD TV and clear QAM digital cable TV

Plug the WinTV-dualHD into a USB port on your Windows PC or laptop and you can watch, pause & record HD TV on your PC.

The WinTV-dualHD can receive two channels of ATSC TV or clear QAM cable TV at the same time so you can:

- Record one TV program while watching another
- Record two TV programs at the same time
- Have picture-in-picture or two complete TV windows on your PC screen at the same time (with the WinTV v8 app on Windows)

ATSC is free HD TV!

ATSC is free over-the-air digital HDTV standard for North America and typically requires an antenna for reception. There is no monthly fee for ATSC HD TV.

Clear QAM is digital cable TV

Clear QAM allows users to watch unencrypted HDTV stations from cable TV without a set-top box. Clear QAM TV is not available on all cable networks, so check with your local cable TV operator for clear QAM availability.

The WinTV-dualHD turns your Windows PC into a high definition dual tuner DVR

Plug the WinTV-dualHD into your PC and turn it into a HDTV digital video recorder (DVR).

We use TitanTV, an Electronic Program Guide, to schedule your TV recordings. TitanTV allows you to see what's on TV now and what's coming up. Schedule TV recordings with the Hauppauge WinTV v8 application and TitanTV. Plus pause live TV and record your favorite TV programs in the full digital TV format.
