

## RadioPRO Integrated Installation Kit with Integrated Climate Controls

For 2015 - 2019 Ford F-150 and 2017-2019 Ford SUPER DUTY with 8" Display Radio

**Ford pickup owners with 8" factory radio will love this kit!**  
**Retain OE cameras and features, HVAC controls, vehicle settings, steering wheel controls, and install any aftermarket radio with a beautiful factory look.**

The RPK4-FD2101 Integrated Installation Kit breaks new ground by introducing PAC's new 5.2" ultra-wide touchscreen LCD control panel. This flush mounted control and display panel provides quick and easy access to dual zone heating and air conditioning controls, cameras\*, gauges, and other vehicle information and settings.

Includes: Dash kit for mounting a double-DIN or single-DIN radio, OE-matched inserts to support all vehicle button and HVAC configurations (single-zone / dual-zone), radio replacement interface, plug-in vehicle connection harness, antenna adapter, USB cable, and OE camera retention harness.

\*Optional Driver Safety Upgrade: 5-Camera Input Harness (**RPA-16P5V** sold separately)

### Key Features

- ▶ Touchscreen access of vehicle settings, dual zone HVAC functions, camera functions, and performance gauges
- ▶ Retains factory cameras (including: 360 camera view, park assist, dynamic parking lines, and PTBA (if equipped))
- ▶ Enables the addition of up to 4 aftermarket cameras (requires **RPA-16P5V** sold separately)
- ▶ Retains factory climate control buttons and knobs (OE relocation)
- ▶ Retains steering wheel control functions
- ▶ Retains amplified audio system\*\*

**\*\*B&O Not retained in 2018-2019 F-150 (A2B systems)**

**Use APH-FD02 in these applications to bypass B&O amp  
 APH-FD02 sold separately**

- ▶ Factory-matched inserts for all vehicle configurations
- ▶ Factory-matched radio installation dash kit
- ▶ Accommodates a single-DIN or double-DIN aftermarket radio
