

METRO ELECTRIC KICK-START SCOOTER

8 MI. MAX. RANGE **2.5 HRS.** QUICK CHARGE **7.5 MPH** MAX. SPEED

SWAGTRON METRO SK3 Foldable Electric Scooter with Boost & Cruise Kick-Start Motor

Your kids want the exhilarating freedom of an electric scooter. But you want something with a bit more control for them. The SWAGTRON® METRO SK3 sits in that happy middle ground for younger riders. The METRO SK3 rides like a traditional kick scooter. After reaching a certain speed, the rear motor automatically kicks in and boosts the speed and sets the cruise. The SWAGTRON SK3 is the perfect option for the parents that want their kids to stay active, and for the kids who love to zoom-zoom.

Move More, Kick Less, Ride Farther

Hop on the METRO SK3 and kick off. The motor automatically kicks into gear after you manually reach 1.8 mph. After that, the motor will boost your speeds up to its maximum, around 7.5 mph*. Not only will it boost your speed, the motor also maintains speed with an automatic cruise control feature. No fussy triggers or extra controls. The METRO SK3 takes care of this for you automatically.

Specifications:

Net Weight: 8.1 lb. / 3.7 kg | **Dimensions:** 31.1 x 11.1 x (31.9-38) in. / 79 x 28.3 x (81-97) cm | **Materials:** Aluminum alloy | **Max. EASY, FUN & TOTALLY ADDICTIVE

ONCE YOU'RE ON, YOU WON'T WANT TO GET OFF

Simple One-Step Folding

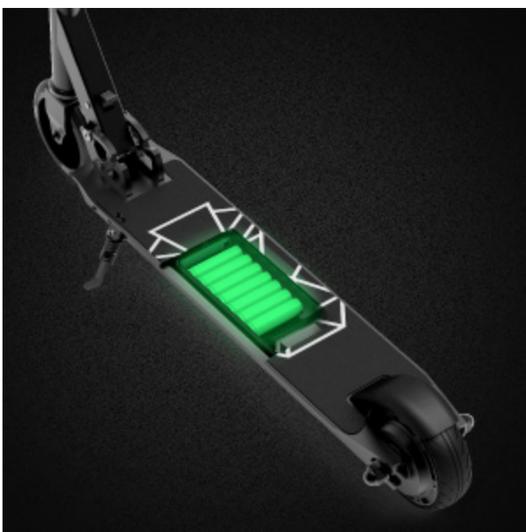

The METRO SK3 features a specially designed, quick-access folding mechanism that makes folding the scooter quick and easy. In a single swift motion, the scooter folds down to an even more compact size. Stow it in your locker, in your closet or under your desk. And the kid-friendly, lightweight frame weighs just 8.1 pounds, so it's easy to carry.

Undeniable Quality That Lasts

This kick-start scooter for kids and teens is built with the same special care and attention to detail that's made SWAGTRON a favorite among parents, kids and even pro athletes. The frame, crafted from aluminum alloy, provides extra durability to handle extended rough-and-tumble playtime of today's kids. Its extra-wide 5.5-inch deck supports weight up to 135 pounds and provides plenty stability for riders of all skill levels. And with the height-adjustable stem, the METRO SK3 grows as your kid grows, making it more than a "one-and-done" scooter. This is a ride kids will love for years to come.

World-Class Service and Support

Have a question? Need extra guidance? Visit our Help Hub for up-to-date information, how-to videos, and answers to frequently asked questions. Want to speak to a live rep? We get it. That's why all SWAGTRON® rideables are backed by our expert team of support specialists, fully staffed in the U.S. and available seven days a week. Simply contact us via email, by phone or on live chat.

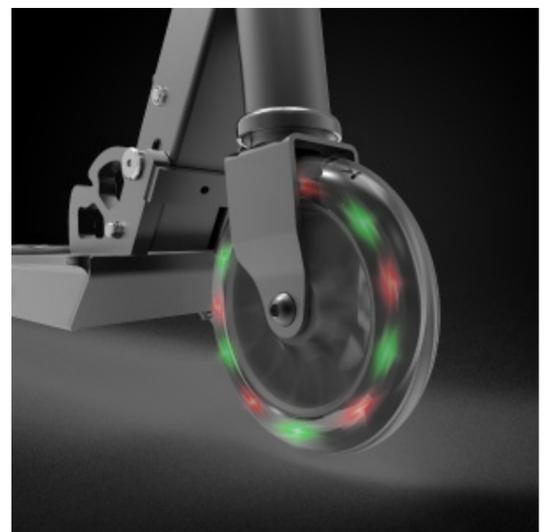

Adventures That Last

The SK3 charges in just 2.5 quick hours. That single charge powers the board for up to 8.1 miles. Run out of juice? Keep the adventure going! Just kick and go, like a traditional kick scooter.

Auto Boost & Cruise

Kick off like a traditional scooter and let SK3 handle the rest. Once you reach 1.8 mph, the motor automatically boosts your speed to the max and keeps you there until you brake.

Hop On — Show Off!

The front wheel lights up with colorful LEDs that deliver a lot of style and flair to your adventure. Now, young riders can show off their vibrant personality.
