It’s one thing to have a hobby for interior design. It’s a whole other level to tackle designing your own, personal space. And an even greater challenge yet? Turn that hobby into a career.

That’s exactly what local southern California designer Michele Prata strives to do daily within the luxury space of the sunshine state.

For over 25 years, Michele has invited her clients along to be part of the creative process when designing their next kitchen, bathroom, etc.

‘[Creating] gives an opportunity to escape the mundane in our daily lives,’ says the esteemed designer. ‘As an interior designer, it’s important to offer my clients a meaningful experience throughout the design process. Having the patience to listen, evaluate and implement their preferences creatively is the most valuable of all lessons learned over time.’

Michele continuously works, not just alongside her clients, but with the businesses that make her visions possible.

‘Pacific Sales has the most incredible team of reliable service-oriented people that add ease in the purchasing and delivery process.’

‘Keeping a sense of humility, integrity and service, I rely on my vendors and manufacturers as a big part of my team,’ Michele conveys. When the hectic of these projects threatens to overwhelm, Michele knows exactly where to go.

‘Pacific Sales has the most incredible team of reliable service-oriented people that add ease in the purchasing and delivery process.’

WE THANK YOU, MICHELE, FOR NOT ONLY YOUR BUSINESS, BUT FOR YOUR INSPIRED TALENTS AND EXAMPLE.

When you work with us at Pacific Sales, we hope your experience is so much more than transactional. We’ve gathered the best people to create our PAC family, guiding you through your buying journey and offering expertise and inspiration along the way.

One of those field experts and long-time PAC employee is Julie Wolfe, plumbing manager with over 16 years in the industry.

We sat down with Julie and discussed Pacific Sales, her experience, and the future of the home improvement space.

**How did you get your start in this industry?**

I got into home improvement years ago and after spending time in appliances, tile, and plumbing I found that I most enjoy projects that include decorative kitchen and bath fixtures.

**What’s the best part about working with clients?**

I love utilizing my knowledge and experience in the industry to solve the unique needs of each client. By discussing their design inspirations and requirements, together we make their project come to life.

"I love utilizing my knowledge and experience in the industry to solve the unique needs of each client."

There is no better sense of accomplishment, than when the client comes back after the project is completed to tell you it turned out just the way they envisioned, and that they would recommend their friends and family back to me!

**WE LOOK TO THE INCREDIBLE PEOPLE LIKE JULIA TO CONTINUE TELLING OUR STORY.**

FOCUS ON THE DESIGNER
DEBBIE TALIANKO - TALIANKO DESIGN GROUP

What drives quality design? Is it the inspiration? The history of the craft?

If we look at the potential design holds within the kitchen space, many of us want a cohesive and comfortable environment as much as everything to function and work when used.

According to pioneering designer Debbie Talianko, the art of her craft is all about adding to the human experience.

"Combining beauty with function is an art. Design is a jigsaw puzzle and, when solved, can be very satisfying."

Inside the confines of a kitchen, Debbie works to bring a sense of completeness and even tranquility to each of her clients.

"Kitchens are where we live. Appliances help add to that experience. Feeling completely at peace and special in a space that is totally unique creates a definition of luxury."

Because of incredible talents like Debbie, Pacific Sales continues to evolve, offering diversity in both our products and the possibilities behind them.

Talianko Design Group offers interior design services that will change the way you live, and help you build the home you deserve.

WE THANK YOU, DEBBIE, FOR NOT ONLY YOUR BUSINESS, BUT FOR YOUR INSPIRED TALENTS AND EXAMPLE.

For our clients, the eye is always on the prize. It’s that obsession over color, aesthetics, space, and imagination. The project holds all the power, and who better to help bring that vision to life, than our experts at Pacific Sales?

One of those project gurus is Sergio Deniz, store manager with over 14 years of experience. Sergio knows about realizing the hopes of his clients. What is it about a project that keeps you engaged?

“I love the discovery portion of talking with the customer and finding what look and function they’re trying to achieve. That gives me the ability to use my experience and knowledge to offer different solutions in order to make the process easier for any customer, contractor, or designer.”

Is there any project you’re working on now that you can give us a peek into?

“I have a project where a contractor is building an ADU (Accessory Dwelling Unit) for his mother in law. They are using induction cooking for her as it’s safer to use and it has timers with automatic turn offs for safety. It’s an 800 square foot addition that they’re looking to transform into a compact, contemporary kitchen. For food preservation they have chosen to go with fridge/freezer drawers versus a full-size unit and a dishwasher drawer style since a full size would be too much for her.”

Why do you recommend Pacific Sales to a trade customer?

“We understand that contractors, builders, and designers are busy, and there are many moving parts to a project. It is so important to me that all steps of the process from ordering, to fulfillment go as smoothly as possible. Pacific Sales offers competitive products, pricing, financing, product selection, smart home integration, and so much more. We as their guides will support them throughout the entire process.”

WE THANK YOU, SERGIO, FOR YOUR VAST KNOWLEDGE AND MANY YEARS OF COMMITMENT TO OUR CLIENTS!

See Sergio along with all of our expert staff at Pacific Sales for guidance and inspiration for your next dream project.
