ABOUT JACKERY

THE VISION

We made a daring prediction 10 years ago, that the power bank would be the best solution to the issue of power shortages with mobile devices. Subsequently, we created the Jackery brand and have been taking the lead in the portable power industry ever since.

However, as people's lifestyles are rapidly evolving, power banks could hardly meet the demand of consumers' increasing hunger for a sustainable power supply when enjoying outdoor living. We have created and launched a new series of product - Jackery Portable Power Station, which can provide unimaginably enormous amounts of ubiquitous energy for outdoor enthusiasts.

With our persistent innovations and striving for perfection, we believe that Jackery Portable Power Stations will definitely enhance consumers' experiences with their outdoor lifestyle.

CERTIFIED QUALITY

VERSATILE PORTABLE POWER

All Jackery power products have been certified to meet regulatory, safety and environmental standards that meet or exceed market demand. We are committed to strict quality control, customer service and reliability that earns the trust of our customers.

EXPLORER SERIES

PORTABLE POWER STATION

You live life on your own terms, using technology to go outdoors and stay connected. This requires a lot of power.

A pioneer in the industry, Jackery understood mobile lifestyles would require outdoor portable power stations so you can keep going, even when you go off the grid. Jackery innovation and improved technology is the only way to supply your increasing need for power outdoors.

Our latest offering, the Explorer series, is designed to provide power outdoors. The solar-ready portable power station improves mobile living and outdoor life. Now you have the energy and power to go where you want to be. Jackery. Power Outdoors.
