

Human Touch®
Reflex PRO
Foot and Calf Massager

Soothe. Refresh. Relieve.

CIRQLATION® | Patented Figure-Eight Technology®

The Human Touch® Reflex PRO Foot and Calf Massager incorporates CirQlation and Figure-Eight Technologies that are designed to emulate those of a professional masseuse. Massaging the feet and calves in an upward, rolling or wave-like motion, and forcing blood away from the feet and toward the core of the body helps to improve circulation. By incorporating reflexology massage, a popular holistic and complementary therapy, the Reflex PRO helps to improve general health and relieves stress and pain in other parts of the body.

This patented Figure-Eight Technology circulates blood from the feet toward the core of the body, allowing fresh nutrients to re-enter the calves and feet for greater healing and soothing comfort.
