*FOTILE Equivalent CFM is a higher CFM rating due to our Iterless technology that combines WhisPower Motors and Capture-Shield design. By utilizing this technology, FOTILE applies the Coanda Effect by accelerating smoke extraction and grease separation, and increasing our Capture Efficiency. This enables FOTILE to cover a larger cooktop surface (6 sq.ft.) and achieve a 95% oil filtration rate, and 98% odor reduction rate, keeping your kitchen smoke free and smelling fresh.
