

PLATINUM

PACKAGE CONTENTS

- Smooth Metal-Link Band
- 3 pin-removal rods
- Adjustment tool
- *Quick Setup Guide*

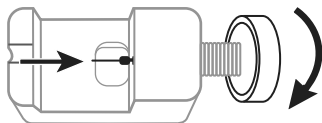

FEATURES

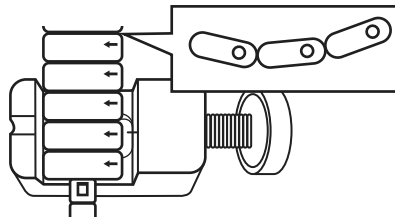

ADJUSTING THE LENGTH OF YOUR BAND

You can remove links to adjust the watch band length.

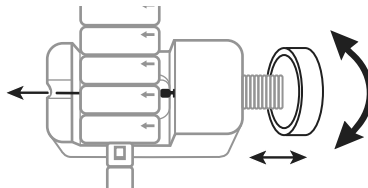

- 1 Turn the knob counter-clockwise to make room in the slot.

- 2 Place the band into the slot with the arrows on the backside of the band face up and pointing away from the pin removal rod, and then align the pin in the watch band link with the rod.

- 3 Turn the knob clockwise so that the rod pushes the pin partially out of the watch band link. Turn the knob counter-clockwise to open the slot, and then remove the watch band and pull the pin completely out of the band link.

SMOOTH METAL-LINK BAND FOR APPLE WATCH

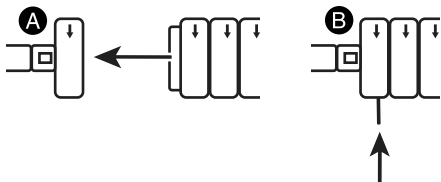

QUICK SETUP GUIDE

Before using your new product, please read these instructions to prevent any damage.

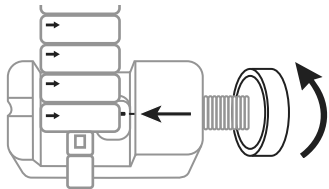

- 4 Repeat steps 2 and 3 to remove the pin from the other side of the link, and then remove the link. Continue removing pins and links until the band is the desired length.

- 5 Press the two unattached links together, with the arrows on the backside of the links facing the same direction, and slide a pin into the hole that is on the opposite side of the arrows.

- 6 Place the watch band into the slot with the arrows on the backside of the band face up and pointing toward the pin-removal rod. Align the pin with the rod, and then turn the knob clockwise to push the pin into the watch band link.

REPLACING THE PIN-REMOVAL ROD

- 1 Open the bottom cover to find the two spare pin-removal rods in the tool.
- 2 Pull out the current removal rod with pliers and replace with a new one.

ONE-YEAR LIMITED WARRANTY
