

V913

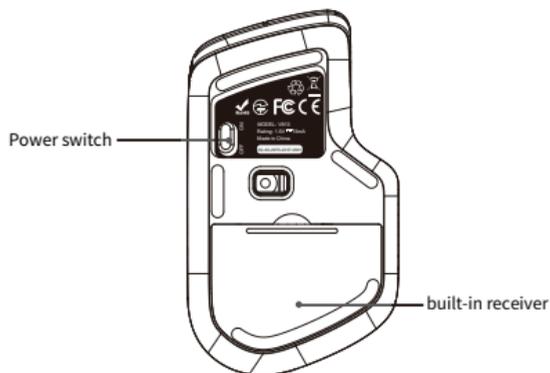

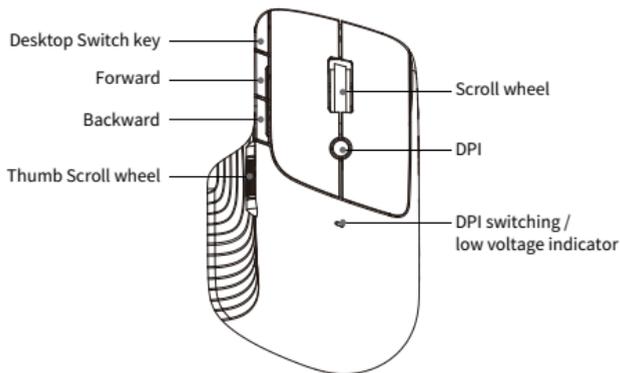

Ergonomic Mouse

User Manual

Thank you for purchasing this mouse, please read the manual carefully before use to avoid unnecessary trouble.

Distribution map of functions

Mouse Usage

1. The mouse is in 2.4G mode, and you can choose to use 1 AA or AAA battery.

2. How to code:

Turn on the power switch, and press the middle right button for 3 seconds. When the LED on the bottom lights up red, please insert the receiver. After completing the code, the mouse will work normally. The factory default matching is completed.

3. DPI Settings

There are 3 grades of DPI, 800-1200 (default) -1600. Short press the DPI button to cyclically switch DPI, 800DPI (the indicator flashes once, and then turns off) -1200DPI (the indicator flashes twice, and then turns off) -1600DPI (the indicator flashes three times, and then turns off). DPI has no memory function.

4. Report rate: 250Hz

5. Wake up the mouse: Default movement wakes up the mouse; no deep sleep.

6. Low voltage reminder: When the battery voltage is lower than 1.1V, the DPI switching indicator will flash to remind the user to replace the battery in time.

7. Working distance: 10M/32ft.

8. Compatibility: Compatible with Windows 7/8/10/MAC OS
