

Telehealth enablement solutions.

Best Buy® Business can help you assemble the right hardware to complete your telehealth program. Choose from the most reliable brands of mobile phones, tablets, cases, chargers, headphones, health monitoring devices and more. Once we've helped curate and customize your ideal product and service solutions, we'll make it easy to get it in the right hands at the right time. Here are just some of the ways we support your telehealth services while helping bring it to life:

Installation of your preferred telehealth apps, so they're ready to use right out of the box.

Configure a device management solution, including Jamf for Apple devices and Knox for Samsung devices.

We'll set up business-grade enterprise mobile cellular connectivity to phones and tablets.

We can stage and ship entire kits to multiple locations, such as individual offices or patient homes.

Geek Squad® Protection option extends OEM warranties and protects your investment.
