

Product Set Up

Bean Bag Set-up Instructions

001.

OPEN CAPSULE

CHECK DOTTED CUT HERE LINE

Cut along the cut here dotted lines. Break open plastic bag so that the foam expands into the protective liner.

002.

TIME

TIMING IS ESSENTIAL

The foam expands into the protective liner. If there are any lumps, break them apart with your hands. The ECOFOAM will begin to expand immediately. WAIT 6 HOURS for ECOFOAM to fully expand to fill the liner.

003.

Bean Bag Seat

Complete Comfort

AFTER 6 HOURS place the expanded foam inside the liner into the outer cover.
Have a seat!

PLEASE BE PATIENT as full expansion may take up to 3 days.
Regular "fluffing" is recommended.
