

Prepping you, and your home, **for the holidays.**

We seem to start planning for the holidays a little earlier each year. Perhaps because every year it seems to pop up on us and we're never fully prepared. But not this year. With the help of a Best Buy® Home Expert, we'll make sure you and your home are ready for the holidays with the right tech and appliances for those staying home and having guests, plus the right gear for those headed over the river and through the woods. It's never too early, so let's get started.

[Schedule A FREE Consultation](#)

Home prepped.

Getting your home ready for the holidays can be daunting. The decorations, the meal prep, inside, outside, you want to make it magical. Thankfully, a Best Buy Home Expert can create the perfect atmosphere for your home this holiday season.

Because most gatherings start in the kitchen, let's start there. From decking out an entirely [new kitchen](#) to adding [small appliances](#) that make prepping and serving easy, we have the gear. Slow cookers, air fryers, all-in-ones... we have the appliances that make food prep quick and easy.

But we have more than just appliances. Online you'll find a whole slate of flatware, cooking utensils, cookware and nearly everything you need to outfit your kitchen and dining room.

Then, when it's time to [decorate](#), we've got you covered there too. Deck out your indoor and outdoor spaces with trees, lights, inflatables, figurines and more. From Santa to snowmen to reindeer, we've got the goodies to bring the season to life.

Want a solution that lasts all year? With [smart lighting](#) you can create a holiday atmosphere with colored indoor and outdoor lights—the colors of the season can glow wherever and whenever you want them, from single colors to a mix, or reds and greens.

And don't forget the [movies](#), we've got all the classics on Blu-ray, plus the gear to play them on. Plus the tunes and audio systems to add the right soundtrack to the season. Add a turntable and listen to classic holiday records the way you did as a kid (or your parents did as kids).

Holiday Travels.

There's something about getting away for the holidays. Whether you're going across state lines or over the ocean, we've got the gear to make travel more enjoyable.

It all starts with the right [luggage](#). Did you know Best Buy® offers a full range of suitcases and travel bags? From large roller bags to carry-ons, we've got the right bags to load whatever you want to take with you cross-country. And if you're going overseas, we even have [travel power adapters](#) so the tech you bring with you can stay powered up.

Speaking of tech, what better way to make travel time fly by than watching a movie on a [tablet](#), or listening to your favorite tunes on some [noise cancelling headphones](#) or [ear buds](#). Portable video game systems also make flight times fun time.

Then, once you're there, explore our incredible assortment of [cameras](#) from the finest brands. From point-and-shoot to DSLR to mirrorless and more, we've got Experts ready to help you find the right camera for your trip.

When you're ready to go, let us help you make the journey as fun as the destination.

Wrap up the holidays today.

From prepping your home to prepping your travel, let a Home Expert show you what's possible. And when it's time to gift the ones you love, check out our [holiday gifting blog](#) and see all the ways we can help you find the perfect gifts for everyone on your list.

It's the holiday season, and we're here to help make it happy, bright and, most importantly, easy.
