

DYNAMITE

Dual Bluetooth Streaming Speakers with Built-in Microphone

.....

Dual speaker Bluetooth streaming gives you twice
the sound from your Bluetooth device

33' RANGE

Overview:

Aluratek's DYNAMITE Dual Bluetooth Streaming Speakers are the perfect pair of on-the-go speakers without the hassle of wires. With advanced bluetooth technology you can connect your bluetooth enabled devices to not just one speaker but two at the same time! Place each 3W speaker on the opposite ends of your living room, kitchen, office or bedroom and experience impressive high quality audio from your smartphone, tablet, mp3 players or laptop. Talk to your friends and family hands-free with its built-in microphone feature. With a long lasting rechargeable battery, the DYNAMITE offers a clear, balanced sound quality wherever you go!

Features:

- For smartphones, tablets, and computers
- Stream music wirelessly from your bluetooth enabled smartphones, tablets, laptops, mp3 players
- Range up to 33'
- Listen to music with one or both speakers simultaneously
- Built-in mic to accept incoming phone calls, hands-free
- Output capacity of 3 Watts each (6W total)
- Up to 5 hours playback using rechargeable internal Lithium-ion battery
- Features magnetic base to stick on any metal surface
- Compact and lightweight for easy travelling
- Limited 1 Year Warranty

Explosive Sound

Don't underestimate the size of the DYNAMITE because dynamite comes in small packages! With an output capacity of 6 Watts, the DYNAMITE Bluetooth speakers fills even the largest rooms with explosive sound quality and clarity without distortion.

Dual Streaming

Stream music from your smartphone, tablet or computer to one or both speakers. Simply pair your device to one speaker. Enjoy up to 5 hours playing time with the built-in rechargeable 400 mAh battery. You can also charge and play your music simultaneously.

Hands Free Talking

Features an integrated microphone so you can accept incoming phone calls with hands free convenience.

Magnetic Base

The DYNAMITE has a magnetic plate underneath the silicone base so you can stick em' to your refrigerator, white board, or any metal surface!
