

# Get wireless access to CarPlay & Android Auto

**Combo Wireless Car Adapter**  
for Apple CarPlay and Android Auto

iOS | Android

Apple CarPlay® and Android Auto™ are intuitive, hands-free technology systems integrated into most cars that connects your smartphone to your car's infotainment screen. Apple CarPlay and Android Auto gives you access to your favorite mobile apps like virtual assistant, navigation, music, phone and text messaging without having to pick up your smartphone while you drive.

To access Apple CarPlay or Android Auto in your vehicle you must connect your smartphone to the USB port on the car's

dashboard via your phone's charging cable. The Combo Wireless Car Adapter dongle is a newer, smaller form factor that is simple to install and provides instant wire-free connectivity without the hassle of a wired connection. Now you can use your favorite smartphone apps on your car's infotainment screen wirelessly for a safer driving experience.

# Connect your smartphone to your car's infotainment screen.

## Wireless App Access

Access all your favorite CarPlay or Android Auto features like Maps, Phone, Music, Messages, Calendar and Voice Assistant on your car's infotainment screen without having to take your hands off the wheel or divert your attention from the road.

## Quick Toggle / Auto-Connection

The adapter is Plug & Play ready with no app to download. Plug the adapter into your car's USB port and the adapter will instantly recognize the proper OS and auto connect to your phone. Connect up to 2 phones. Press the button on the unit to toggle between phones.

## Universal Compatibility

The combo adapter supports most vehicles equipped with factory wired CarPlay or Android Auto. Includes a USB-A to USB-C adapter for universal compatibility with your vehicle.
