Stinger® ENLIGHT10 ✳

DYNAMIC LIGHTING ACCESSORIES

FOR USE WITH SPXD DYNAMIC LIGHTING

The SPXDBTC Bluetooth controller allows you to use your smartphone to simultaneously control the colors and patterns of SPXD LEDs installed on your Jeep, truck, motorcycle, ATV, UTV, boat, and more! Want more lights? The SPXYADP allows you to add even more rock lights, strip lights or whips to a single controller and control them all at once! Looking for a plug-and-play solution? Add SPXCLA to plug your lights to a 12v socket. SE-SXMHAR allows light control from your HEIGH10® infotainment system.

💪 Designed for SPXD

Rocks, whips and strips oh my! Combine various types of lights to illuminaate your adventure.

💡 Super Bright LEDs

Colorfully illuminate your vehicle with bright, powerful RGB lighting.

🔌 Perfect Fit

Accessories to simplify and customize your installation.
