Overview

Product Features

Windows 10 operating system

Windows 10 brings back the popular Start Menu from Windows 7 and introduces new features, like the Edge Web browser that lets you markup Web pages on your screen.

AMD Ryzen 3 3200G

Native 4-core processing delivers aggressive yet power-smart performance for advanced gaming, modeling and video editing.

8GB system memory for intense multitasking and gaming

Reams of high-bandwidth DDR4 RAM to take full advantage of the capabilities of the AMD Ryzen 3200G and smoothly run your graphics-heavy PC games and video-editing applications, as well as numerous programs and browser tabs all at once.

480GB solid state drive (SSD) for a blend of storage space and speed

The SSD delivers fast start-up times and data access.

AMD Radeon RX 580 graphics

Driven by 4GB of dedicated GDDR5 video memory to quickly render high-quality images for videos and games.

Next-generation wireless connectivity

Connects to your network or hotspots on all current Wi-Fi standards. Connect to a Wireless-AC router for speed nearly 3x faster than Wireless-N. Gigabit LAN port also plugs into wired networks.

Multi-display capability

Connect the usual single monitor, or add a second, or even third monitor, to expand your viewing space for games or work (monitors sold separately).

Gaming Keyboard and mouse

Provides better, more comfortable control of your gaming experience.

4 USB 3.1 ports maximize the latest high-speed devices

Also includes 1 USB 3.0 port and 4 USB 2.0 ports to connect more accessories and peripherals. The USB 3.x ports are backward-compatible with USB 2.0 devices (at 2.0 speeds).

7.1-channel surround sound

Offers rich audio for your gaming adventures (speakers sold separately).

Mid tower case

Designed for excellent airflow and room for future upgrades.

Additional ports

Include microphone and headphone jacks, as well as HDMI, DVI, and DisplayPort video outputs.

Note: This computer does not include a built-in DVD/CD drive.
