HDR Smart LED HD 720p TV

32"

* Class size: See below for details.

LED

HD 720P

Virtual Surround Plus

HDMI 1.4

USB 2.0

DESCRIPTION

This LG LED TV, in 720p high definition, gives you a crisp, clear picture that's rich with detail. The LEDs bring exceptional brightness to the beautiful high-definition picture, plus Virtual Surround Plus, HDMI, and USB.

KEY FEATURES

LED

An array of light-emitting diodes (LEDs) across this LG TV brings exceptional brightness to the beautiful high-definition picture. LEDs are also extremely energy-efficient while enabling a slimmer, more stylish cabinet design.

HD 720P (1366x768)

Get a crisp, clear picture in 720p high definition that's rich with detail and no distracting flicker.

Virtual Surround Plus

Add new life to TV shows and movies with Virtual Surround Plus. LG's simulated surround effect seems to recreate sounds—everything from blastoffs to bumps in the night—like they're happening all around, using just the TV speakers with no additional hardware required.

HDMI 1.4

For high-performance viewing, the integrated HDMI (high-definition multimedia interface) ports let TV watchers connect audio and video devices quickly and easily using a single cable. Version 1.4 brings some of the latest audio/video features.

USB 2.0

Play movies, videos, music and more in a flash directly from a thumb drive or external hard drive that connects to the television through built-in USB 2.0 ports.

LG LED TV
