COLORTRAIL

RSLEDBAR76 | RSLEDBAR84

**LOPRO SIDEKICK RUNNING
BOARD SWITCHBACK LED
IP-RATED STRIP KITS**

RESPONSIVE COLORS

General white light for visibility, turn signal-activated amber and brake-activated red lights. For use in compliance with state regulations.

The COLORTRAIL LoPRO Sidekick Sequential Running Board Switchback RGBW LED IP67 Strip Kits includes two 76-inch or 84-inch flexible LED strips with an IP67 waterproof rating for extreme environments. It features 3-pin waterproof connectors, a 4-pin Molex for HORIZON10/12 compatibility, and includes brake, reverse, and turn signal wires for added functionality. Perfect for rugged use and custom lighting.

Thanks to its flexible design, COLORTRAIL can easily fit into any space or configuration, making it perfect for everything from off-road adventures to boat lighting or showcasing your vehicle at a car meet. These lights are engineered for both style and longevity, turning heads wherever you go.

With COLORTRAIL, your ride will not only stand out but also be equipped with a high-performance lighting solution that is built to last.
