What's in the Box	
Wacom Pen 4K, 3 Standard Nibs, Quick Start Guide, Warranty Information	

Description

Experience both precision and control with a programmable pen featuring 4,096 levels of pressure sensitivity and battery free EMR technology

The 4k pressure-sensitive replacement pen for Wacom Intuos, designed to suit both left- and right-handed users, has an ergonomic design for ease-of-use and comfort. Its low 7mm reading height, higher linearity and weight-balance calibration deliver better precision and control, enabling you to glide across the tablet like pen on paper. The pen also features two buttons for customized functionality and three accessory nibs included. Electro-Magnetic Resonance Technology (EMR) makes it battery-free, so there's no charging – and no interruption when you're in full flow.

Features

- 4,096 levels of pressure sensitivity for more control and precision
- Battery free and ergonomic design for light and comfortable use thanks to EMR (Electro-Magnetic Resonance) technology
- 2 customizable pen buttons for shortcuts at your fingertips
