Product Overview

How to Do if My Pets Get Nervous?

If your pet is nervous about the noise or the air flow, you may need to let him get used to the machine at first.

1. Let your pet hear the sound of the machine or feel the slower air flow.

2. Treat your pet with snack.

3. Start to use the vacuum. If your pet still get nervous, try to repeat 1-2 to let him know that this machine would not do harm to him.

Get Started

Get Ready

1. Put the dust cup gently in the direction of the arrow.

2. Connect the Accessory to the Vacuum Cleaner Through the Hose.

When using accessories, please pay attention to the edges of the accessories to avoid scratching your hands

3. Connect the power supply.

4. Press the on/off button

5. Select speed

- 1st gear:** the bottom indicator light is on;
- 2nd gear:** the bottom and the second indicator light are on;
- 3rd gear:** all three lights are on.

6. Shutdown Memory Gear.

NOTE

Press the power button to shut down during operation, and the next time it is turned on, it will default to the gear before shutting down.

For example: Press the power button to turn off the power at the second gear, then press the power button again. The machine is on and running in 2nd gear. After the power is cut off, the gear position will not be memorized. For example, after the 3rd gear is running, the machine will be turned off and the plug will be unplugged.

At this time, turn on the power and then turn on the machine, the machine will start and run in 1st gear.

7. Groom your pet.

8. Clean the dust cup.

Tips for Accessories Option

Deshedding brush

Curved comb teeth can fit the back and head well. Used to remove the pet's long and unnecessary thick hair.

⚠ NOTE

Please be careful with the soft parts of your pet and do not use excessive force to cause skin scratches.

Please pop up the PUSH button when you do not need to use it.

Slicker brush

A larger area of comb teeth is suitable for large dogs with thick fur, used to remove the loose hair and the dander inside the coats. Making the hair more fluffy and healthy.

Pet Clippers

- 1) Used to trim the pet's hair without leaving a mess as the hair will not fly around.
- 2) While cutting, it suctions the cut hair!

Use with vacuum or the clippers alone.

Turn on slide up.

NOTE

Remember to pay attention to the cutting edge and position, and do not use excessive force as it causes skin irritation.

How to Replace Accessory Heads?

Installation and disassemble method of pet clippers: hold the pet clippers with one hand, and install or dismantle it in the direction of the arrow with force.

Replaceable accessory head:

pet paw trimmer

dog nail grinder

pet clippers

Disassembly: Hold the product with one hand and push down the accessory head with the other hand.

Installation: Hold the product with one hand and follow the arrows to install the replacement head.

Note: The protective cover on top of the nail grinder is rotatable, you can rotate the cover according to your own needs (Pictures are needed here to guide you).

Pet Paw Trimmer

Used to groom pet's paws, eyes, ears, face, and rump hair.

⚠ NOTE

During use, pay attention to the cutting edge and position, do not use excessive force as it causes skin irritation.

Pet Nail Grinder

Used to groom your pet's nails.

⚠ NOTE

Be careful on the soft parts of the pet's skin, and do not use excessive force as it causes skin irritation.

Install Guide Comb (used with electric clippers)

Choose the length guide comb according to the length of pet hair you want to leave. The guide comb ((3mm/6mm/9mm/12mm/18mm/24mm)) is applicable for grooming different hair lengths.

The guide comb set is small; keep it stored properly when it is not in use.

Long narrow nozzle

Used to clean carpet, sofa corners, car, cat tree and cat nest.

Pet hair remover roller

Effectively remove pet hair that stuck to clothing.

Use with vacuum or the hair remover alone.

NOTE

Roll the remover back and forth.

Do Not roll it in one direction all the time.

Maintenance

Clean the dust cup

1. Cut off the power.

Put your finger on the tail of the dust cup.

(Follow the arrows for directions)

3. Placement of the dust cup

Simply install the dust cup in the direction of the arrow.

⚠ NOTE

1. If the removed dust cup is cleaned with water or a wet cloth, be sure to install it after the dust cup is completely dry. Otherwise, it will damage the motor.

2. Please take dust cup lightly. If it drops will damaged easily. If have any problems with the cup, please contact us on Amazon or contact us email: support@oneisall.com

Clean the blades of pet clippers

1. Push the blades out by hands.
2. Brush and wash the blades.
3. Dry the blades with cloth and drop oil.
4. Align the slot under the blades and press to install the blades.

⚠ NOTE

Oil is not included in the package. Please order it by yourself.

Clean the Metal Screen and Filter Sponge in the Dust Cup

Step 1: Remove the dust bin by pulling it diagonally upwards from the main unit.

Step 2: Snap open

Step 3: Open the bottom cover and clean the dust bin first to clean out the hairs inside.

Step 4: Remove the filter pads and filter screen by jacking outwards from inside the dust bin and clean the pads and filter screen, then put them back in their original position accordingly.

Note: Do not wash filter Pads and filter screen them with water

Filter pads

Filter screens

⚠ NOTE

- The filter should be cleaned with cold water at least every other month.
- Please follow the frequency of use and conditions, the maintenance period is also different, regularly confirm if it is dirty, clean it.
- When cleaning, remember to disconnect the power supply and unplug the plug from the socket.
- Be sure to install HEPA after drying.
- No-yet-dry HEPA can cause electric shock and malfunction.

Cleaning the HEPA & Sponge Filter

Step 1: Remove the dust cup and remove the HEPA & sponge filter.

Step 2. Clean them with brush.

Note: Do not wash filter Pads and filter screen them with water.

Step 3. Place the HEPA & sponge filter back into the machine.
