

Smarter iKettle 3rd Generation

Features

- **Control:** Remote boil your iKettle from anywhere using the Smarter app.
- **Customise:** Use the Smarter app to adjust your iKettle's desired temperature between 20 -100 degrees.
- **Integration:** Connect your iKettle with other smart home devices using IFTTT and Amazon Alexa.
- **Setup:** Simple and secure device pairing with BlinkUp™ allows instant one-step setup.
- **Wake up mode:** Set alarms via the Smarter app to wake you up to the iKettle boiling.
- **Home mode:** Home mode allows the iKettle to boil and be ready for when you return home.
- **Formula mode:** Make night feeds easier, remote boil and get notified once the water reaches the desired temperature for baby formula.
- **Water sensors:** See how much water is in the iKettle by looking at the water level in the Smarter app.
- **Keep warm:** Keep the iKettle on standby at the desired temperature for up to 40 minutes.
- **Manual:** The iKettle can also be manually controlled by turning on the button on the base.
