BLUETOOTH AND NOISE CANCELING BASIC INDICATION

CHARGING YOUR HEADPHONES

- Place your headphones on a flat, stable surface.
- Plug the micro USB connector into the micro USB port on your headphones.
- Connect the charging cable to your computer or adapter.
- The red LED turns on to indicate that the battery is charging and turns off when fully charged.

PAIRING YOUR HEADPHONES

- For more information on pairing Bluetooth devices to your cell phone or MP3 player, see the device's documentation.
- With your headphones turned off, press and hold (Power button) more than four seconds in power off mode. The blue and red LEDs blink alternately.
- On your phone or MP3 player, select "NS-AHBTOENC" from the list of discovered devices, then enter the password 0000 (four zeros) (if required) to pair your headphones.

Notes:

- After your headphones have been successfully paired with the cell phone or MP3 player, your headphones will automatically reconnect to the phone or MP3 player.

Before using your new product, please read these instructions to prevent any damage.
Pairing with a Mac computer

After your headphones are paired, click the Bluetooth icon on the dock and turn on Bluetooth. For instructions, see the computer's documentation or contact the computer manufacturer.

To make your headphones as your default playback device, refer to your computer User Guide or Windows Help.

To use your headphones, they must be selected as the default input and output device on the computer.

Troubleshooting

No sound or low volume

- Make sure that your headphones are turned on.
- Shorten the distance between your headphones and your Bluetooth device.
- Turn up the volume on your headphones and Bluetooth device. Make sure that your Bluetooth device is not muted.

No power

- Put your headphones into pairing mode, then refresh your list of Bluetooth devices. For more information, see the documentation that came with your Bluetooth device.
- If the battery on your headphones is low, recharge the battery.
- If the battery on your Bluetooth device is low, recharge the battery.

My Bluetooth device keeps unpairing

- Make sure that your headphones and Bluetooth device are both in pairing mode.
- Make sure that your Bluetooth device is not paired to another Bluetooth device.

Cannot establish Bluetooth connection

- Make sure that your Bluetooth device is not paired to another Bluetooth device.
- Make sure that your headphones are not paired to another Bluetooth device.

The microphone only works with a Bluetooth connection.

- The microphone only works with a Bluetooth connection.

General

- This device complies with Industry Canada licence-exempt RSS standard(s).
- Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

ONE-YEAR LIMITED WARRANTY

- For a period of one year from the original purchase date, Insignia will replace any defective product or component.
- This warranty does not cover damage resulting from accident, misuse, abuse, improper installation or operation, mishandling, unauthorized repair, or any other cause beyond the control of Insignia.

LEGAL NOTICES

©2019 Best Buy. All rights reserved.

FCC Caution:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Have your dealer or service center check the equipment.

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

FCC Supplier’s Declaration of Conformity:

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation.

The user is required to use the provided equipment, as instructed, to comply with the Class B limits. To comply with the Class B limits, an electrical noise filter should be used for the power supply. If the device is not used with the provided equipment, as instructed, the device may not meet the Class B limits.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation.

This equipment is designed to meet related safety and EMC norms. For a complete list, please visit: INSIGNIA NS-AHBTOENC - Made in China - V2 ENGLISH 19-0117
