

GAMESIR G7 PRO TRI-MODE

Xbox Wired, PC & Mobile Wireless Controller

(Mech White EAN: 6936685222267; Shadow Ember EAN: 6936685220409)

Pro by nature, performance reimagined.

Level up from the celebrated G7 lineage - introducing the G7 Pro. Not only does it inherit the exceptional performance of the G7 series, the G7 Pro also brings exciting new upgrades: the first Xbox controller with TMR sticks, Hall Effect & clicky trigger stops, extra mappable mini bumpers, and enhanced low-latency input and output - all working together to deliver a smoother, more precise gaming experience, born for esports. Additionally, it goes beyond Xbox and PC with full Android support through tri-mode connectivity: **wired for Xbox**, 2.4G & wired for PC, and Bluetooth for Android. A true next-gen upgrade, crafted for gamers who demand more.

Key Features:

1. Tri-mode connectivity - **Wired for Xbox, Wireless for PC, and Bluetooth for Android**

The G7 Pro supports seamless connectivity across Xbox, PC, and Android. Effortlessly switch between modes using the convenient physical mode switch. Choose from **Wired for Xbox**; 2.4G & Wired for PC; Bluetooth for Android.

* For wired connection, the detachable cable retainer ensures a stable and secure connection.

2. GameSir Mag-Res™ TMR sticks, smooth control and ultra-long lifespan

The G7 Pro is equipped with the latest GameSir Mag-Res™ TMR sticks, blending the precise performance and low power consumption of traditional potentiometer sticks with the exceptional durability of Hall Effect sticks. This innovative technology ensures a higher and more stable polling rate, offering gamers a smoother, instantaneous, and anti-drift gaming experience like never before.

3. Hall Effect analog triggers, with clicky Micro Switch trigger stops

The GameSir precision-tuned Hall Effect analog triggers provide unmatched smoothness and linear input for precise control. Featuring clicky Micro Switch trigger stops, gamers can easily switch based on their preferences. Additionally, the G7 Pro offers a Hair Trigger Mode that can be activated by holding the M+LT/RT buttons. Whether you need precise linear control or ultimate responsiveness, the G7 Pro gives you the competitive edge.

4. Built-in gyroscope with mapping function (PC only**)**

Enhance your control on PC with the built-in gyroscope, which allows you to map the gyroscope to the stick, buttons, or mouse. This enables more precise and intuitive gameplay.

5. Four extra buttons for enhanced personalized control

The G7 Pro features four extra buttons, including two mini bumpers (R5/L5) and two lockable back buttons (R4/L4), allowing gamers to customize their controls.

6. 1000Hz polling rate on PC via both wired & 2.4G connections

Experience ultra-responsive gaming with a 1000Hz polling rate on PC, available through both wired and 2.4G wireless connections. This ensures instantaneous input registration, reducing lag and optimizing your performance for the most competitive gameplay.

7. Optical Micro Switch ABXY and Mechanical Micro Switch D-pad

Feel the esports-grade precision with optical micro switch ABXY buttons and a mechanical micro switch D-pad. Designed for tactile feedback and long-lasting durability, every press is crisp and responsive—ensuring consistent performance even during the most intense gaming moments.

8. Three-part magnetic swappable faceplate and extra D-pad for free customization

Personalize your setup with a three-part magnetic swappable faceplate and two extra D-pads (included), making it easy to match your controller to your unique style or grip preferences. Plus, the G7 Pro is compatible with faceplates from the previous G7 series, giving you even more ways to customize.

Please note: While G7 series faceplates are compatible with the G7 Pro, the G7 Pro's faceplate is not compatible with other G7 series controllers (G7, G7 SE, and G7 HE).

9. Four rumble motors for realistic and immersive haptic feedback

The controller features a total of four rumble motors, with one in each grip and trigger, providing immersive and realistic vibration feedback, ensuring that every small crash and shot is felt in your hands as if it were happening on the spot.

10. Smart Auto Start-Stop Charging Station

The G7 Pro comes with a Smart Auto Start-Stop Charging Station and a built-in 1200mAh battery, delivering extended battery life for hours of uninterrupted gameplay. Simply place the controller on the station to begin charging, and pick it up to play. The station also includes a receiver storage compartment at the base, allowing you to extend the cable's reach or to securely store the receiver when not in use.

11. 3.5mm audio, supported via both wired & 2.4G wireless

The G7 Pro supports 3.5mm audio output via both wired & 2.4G wireless connections, delivering a more convenient and immersive gaming experience.

12. Upgraded software, lets you tailor the controller to your needs

The G7 Pro is compatible with the upgraded GameSir Nexus app, which brings a significant upgrade over the original. It introduces powerful new features such as gyro settings, stick curve adjustments, and button-to-mouse mapping, giving you deeper customization and more control than ever before.
