## Dual Monitor Desk Mount with Full Motion Arms

ALL THE BELLS AND WHISTLES FOR YOUR WORKSTATION

Dual monitor desk mounts are ideal for increasing your productivity, while improving ergonomics. Installing two monitors side by side allows you to see more on your screens and prevent switching from one application to another. Elevating the monitors from your desktop allows better posture to prevent eye strain, neck and back pain that can be caused by improper desktop and monitor arrangement.

- This full motion monitor mount allows you to independently adjust the position and angle of each monitor. Each arm can swivel 180 degrees. The monitor plates tilt up and down and rotate between landscape and portrait modes.
- It is a universal fit to virtually all monitor brands and models on the market with VESA bolting patterns.
- Installation is very simple. Either use the clamp base to attach it to the edge of your desk or use the grommet base option for a grommet installation.

**HEALTHY LIFESTYLE.** Turn your desktop into an ergonomic environment.

**EASY INSTALLATION.** Installs in minutes. All hardware included.

**PRODUCTIVITY.** Improve your productivity with dual screens. Get more done.
