Compatible with any HD enabled TVs, monitors and projectors; great solution for dorm rooms, restaurants, classrooms, or conference rooms.

The new USB-C port provides dual monitor capabilities to maximize productivity.

Create a personalized workspace or media center with USB or Bluetooth accessories such as keyboard, mouse, or webcam.

Equipped with Dual-band WiFi and a Gigabit Ethernet port for reliable high-speed connectivity.

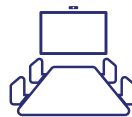

4K quality video output at 60FPS for streaming Netflix, Youtube, Spotify, Amazon Prime, and more.

It can directly power an external USB hard drive with its power delivery technology and serve as network storage solution for faster transfer speed.

### DIGITAL SIGNAGE

Discreetly connect the Access4 to any HD device to display your content in high resolution. Download, deploy, and create interactive experiences with kiosks.

### VIDEO CONFERENCING

The Access4's small form factor reduces the set-up time for conference rooms and creates the perfect collaborative experience with its low-acoustic footprint. Designed with an Ethernet port for secure and reliable connection for all video calls.

### IoT

Use Windows IoT to power smart cities solutions. Azulle's patented fanless technology also makes it the ideal solution for smart manufacturing plants and tracking distribution.
