PIN 6	Red	Hi beam power	External 12V switch

Connector is shown from the PIN side

DIMENSIONS

Installation Guide

MOUNTING HARDWARE

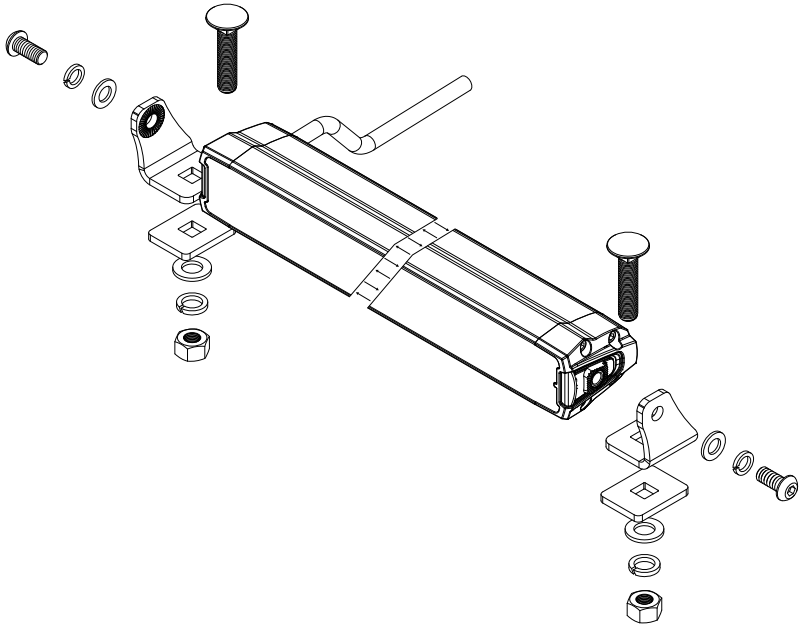

- One (1) Left mounting Bracket
- One (1) Right mounting Bracket
- Two (2) Rubber Spacers
- Two (2) M8 X 20mm Black Stainless Bolts
- Two (2) M8 Flat Washers
- Two (2) M8 Lock Washers
- Two (2) M10 X 25mm Black Stainless Bolts
- Two (2) M10 Flat Washers
- Two (2) M10 Lock Washers
- Two (2) M10 Black Stainless Nuts

 MOUNTING BRACKET L	 MOUNTING BRACKET R	 RUBBER SPACER	 M8X 20 BOLT	 M8 FLAT WASHER
 M8 LOCK WASHER	 M10 X 25 BOLT	 M10 FLAT WASHER	 M10 LOCK WASHER	 M10 NUT

- Choose a secure, vibration-free mounting surface (bumper, roof rack, A-pillar, etc.).
- Ensure the lights do not obstruct airflow, visibility, or vehicle components.
- Attach the mounting brackets to the light bar.
- Loosely secure hardware to allow for beam adjustment.
- Mount the assembly to the vehicle using the provided hardware.

Installation Guide

- ◆ Connect the red wire to a positive (+) 12V switch for Hi beam.
- ◆ Connect the green wire to a positive (+) 12V switch for Low beam.
(Red wire must also be powered)
- ◆ Connect the black wire to a clean chassis ground.
- ◆ Connect the yellow wire to a positive (+) 12V switch for amber position light.
- ◆ Connect the white wire to a positive (+) 12V switch for white position light.
