IMPORTANT SAFETY INSTRUCTIONS

- Read these instructions.
- Follow all instructions.
- Never expose the product to fire as this could result in personal injury.
- Do not store the product in an extremely cold or warm environment.
- Never dismantle the product.
- Never let children play with the product.

Note: The battery in this speaker cannot be replaced by the user.

CHARGING YOUR SPEAKER

1. Lift the tab to open the rubber cover over the ports.
2. Connect a USB cable from your speaker to a computer or power adapter (not included). The charging LED is orange while charging and turns off when the battery is full.

Notes:
- The speaker beeps every five minutes when the battery is low.
- You can charge your speaker while playing audio or using the walkie-talkie.

CONNECTING AN AUDIO DEVICE

1. Press and hold (power) to turn on your speaker. The Bluetooth LED blinks blue quickly and the speaker enters pairing mode.
2. Make sure that your Bluetooth device is within 33 ft. (10 m) of your speaker.
3. Press (Bluetooth/call) on both speakers for three seconds to disconnect from other Bluetooth devices and enter pairing mode. The Bluetooth LED blinks quickly.
4. Press (Bluetooth/call) twice on one speaker. The speaker says “true wireless pairing” and the right speaker’s Bluetooth LED blinks blue slowly and the left speaker’s Bluetooth LED is solid blue.
5. Make sure that your Bluetooth device is within 33 ft. (10 m) of your speaker.
6. Turn on your Bluetooth device, then turn on Bluetooth and select NS-SPBTWT from the list of available devices. When your Bluetooth device is paired, the left-channel speaker’s Bluetooth LED blinks blue quickly and continues to blink blue slowly.

Note: Only the left-channel speaker can be used for phone calls or AUX connections while using TWS.

7. Press (power). The speaker announces that it is either the left or right channel so you know which side to place the speaker on.

TAKING A PHONE CALL

The following functions are available when paired to a phone with Bluetooth:

- Reject an incoming call: Press and hold (Bluetooth/call)
- Answer an incoming call: Press (Bluetooth/call)
- Switch audio between your speaker and phone: Press and hold (Bluetooth/call)
- End current call: Press (Bluetooth/call)

Note: Only the left-channel speaker can be used for phone calls or AUX connections while using TWS.
When your speaker is not paired to a device, the Bluetooth LED blinks blue.

**RECONNECTING TO A PAIRED DEVICE**

Connect your Bluetooth device to another device.

1. Turn off Bluetooth on your Bluetooth device.
2. Move the Bluetooth device out of range.
3. Disconnect your Bluetooth device from the other Bluetooth device, then set your device to pairing mode.
4. Turn on your Bluetooth device, then make sure that Bluetooth is on.
5. Make sure that your Bluetooth device is within 33 feet (10 m) of your speaker.
6. Turn on your speaker. Your speaker searches for the last connected Bluetooth device and reconnects.

**TO RECONNECT...**

- Make sure that your speaker is in pairing mode.
- Make sure that your Bluetooth device is not paired to another Bluetooth device.
- Select [NS-SPBTWT] on your Bluetooth device.
- Use your Bluetooth device to connect to [NS-SPBTWT].

**NOTE**

The Bluetooth range (33 ft./10 m) may be reduced if the wireless signal has to pass through walls or other obstructions.

**USING YOUR WALKIE-TALKIE**

1. Turn the frequency knobs to tune your walkie-talkie to the channel (1-8) that you want. The walkie-talkie LED lights red while you transmit.
2. Press and hold the [PTT] (push-to-talk) button to speak, then release when you are finished.
3. To turn off the walkie-talkie, turn the frequency knob to P-OFF.
4. The speaker resets.

**WALKIE-TALKIE LED FUNCTION**

- **Solid red** - Transmitting
- **Blinks green** - Receive signal
- **Solid green** - On a call

**TROUBLESHOOTING**

**PROBLEM**

- I hear interference
- Poor sound quality
- No sound or low volume
- No power
- Bluetooth range: 3.3 ft. (10 m)
- Battery size: 2,200 mAh
- Wattage: 3W
- USB cable length: 11.6 in. (30 cm)

**SOLUTION**

- Make sure that both walkie-talkies are fully charged and turned on.
- Make sure that you and the person you want to talk to are on the same frequency.
- Make sure that both walkie-talkies are fully charged and turned on.
- Try changing the volume on your music source.
- Pair your speaker to a different mobile device.
- Try a different music source.
- Move your speaker and Bluetooth device closer together.
- Shorten the distance between your speaker and your Bluetooth device.
- Make sure that your Bluetooth device is turned on, Bluetooth is turned on, and your speaker is in pairing mode.
- Make sure that your speaker is turned on.
- Make sure that your speaker's battery is charged.
- If the battery on your Bluetooth device is low, recharge the battery.
- Make sure that you have selected [NS-SPBTWT] on your Bluetooth device.

- Bluetooth range: 3.3 ft. (10 m)
- Run time: 12 hours (speaker); 8 hours (walkie-talkie)
- Charge time: 4.5 hours
- Weight: 5 lbs. (2.4 kg)
- Walkie-talkie range: 1.2 mi. (2 km)

**LEGAL NOTICES**

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation.

Risks and alterations may be required to prevent harmful interference in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

If the interference remains, you must consult the dealer or an experienced radio/TV technician for help.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
