System Overview

Why settle for 1080p when you can go Extreme? Introducing Night Owl's Extreme HD 3 Megapixel (MP) DVR. This state-of-the-art 3MP DVR provides 50% more pixels than standard 1080p (2MP)! Rapidly evolving HD technology has been amazing for movies and sports. Now, it's also revolutionizing video security! Customers continue to demand more enhanced image quality for use in applications where showcasing movement and identifying objects are vital. After all, nothing is more precious than your family, your home, your business and your peace of mind.

With the introduction of HD resolution in security DVRs, clearer and sharper images have become the new norm. Night Owl's Extreme HD 3MP DVR offers customers the flexibility to use our HD 3MP, 720p HD, 1080p HD and standard analog cameras on one DVR. This series is completely interchangeable, giving customers the option to mix and match equipment for a fully customized package. Additionally, customers can remotely access this DVR on their smart devices via our FREE remote viewing applications. This truly is security you can count on!

Extreme HD 3MP Resolution

Our 3MP Extreme High Definition DVR provides the stunning image quality you crave. With 50% more pixels than standard 1080p systems, you see intricate details with better clarity and detect threats with precision. If your existing system is not providing the coverage you need, enjoy the peace of mind this DVR offers.

Backwards Compatible (Cameras Not Included)

In addition to connecting our 3MP Extreme HD cameras, Night Owl's 3MP DVR is also backwards compatible with our standard analog, 720p HD and 1080p HD cameras. If you have an existing system and are wanting to upgrade, look no further! Night Owl carries a wide variety of add-on cameras that will fit your every need. **(Cameras Not Included)**

1 TB Pre-installed HDD

Our 3MP Extreme HD DVR comes equipped with a 1 Terabyte (TB) Hard Drive (HDD). 1 TB not enough? No worries! The pre-installed HDD can easily be upgraded to a max 6 TB internal SATA HDD. ⁽⁶⁾

Hardwired Security DVR – CCTV (Closed Circuit Television) with Internet Option

Night Owl's 3MP Extreme HD DVR is hardwired to provide invaluable peace of mind. Though wireless may seem like a convenience, Night Owl's wired DVR offers more protection. A hardwired connection provides uninterrupted viewing and recording with no delays! Additionally, you will not experience interference from other Wi-Fi devices.

Further, this DVR does not require an Internet connection to view your recordings. While your DVR must be connected to your Modem/Router to view your system remotely, you can easily view your recordings on a TV monitor simply by using the included HDMI cable. No matter what your individual setup, feel confident you will be able to view and access your system with ease! ⁽¹⁾⁽²⁾⁽⁴⁾⁽⁵⁾

Smart Device Integration

Night Owl fits right in with your mobile lifestyle by allowing you to remotely monitor your home or business. Our free Night Owl X app for iOS® and Android™ smartphones and Night Owl X HD app for iOS® and Android™ tablets are easy to setup and use. ⁽¹⁾⁽²⁾⁽⁴⁾⁽⁵⁾

▪ 3 Easy Ways to Connect

Traveling out of town, or don't have time to stop by your business? With Night Owl, you can easily view your system from anywhere in the world! Easily connect to your video security system with your computer, smartphone or tablet.

▪ Smart Auto Detection

With Smart Auto Detection, your DVR will automatically be detected by our app's software, making connecting easy! To use this preferred method, ensure that your smart device and DVR are both on the same network and then follow these simple steps:

- 1) Download the FREE Night Owl X app for smartphones or Night Owl X HD app for tablets
- 2) Select the yellow plus sign within the Device menu
- 3) With your smart device and DVR on the same network, Smart Auto Detection will auto find your DVR

- **Private Access to Video**

User video is never transmitted to our server, nor any third-party server, EVER. Once setup is complete, your cameras and smartphone operate as peer-to-peer devices.

- **No computer needed for Playback**

Our apps allow you to easily playback video from multiple cameras on one screen on your smart device. Plus, you have the ability to playback months of video footage without ever having to touch the DVR again. Our intuitive apps can even store the video or picture directly onto your smart device.

PC/Mac Remote Viewing Software

With Night Owl's remote viewing software, you can easily view your system on a PC or Mac. Simply download the free CMS from our website and the software will find your device on the network instantaneously. This powerful software allows you to take full control over your DVRs and cameras. Easily backup video to your computer's hard drive, change system settings and even view up to 128 cameras at once or playback events from months ago. Turn your computer into a real-time security center in minutes! ⁽¹⁾⁽⁴⁾

24/7 Technical Support, Available 365 Days a Year with EZ Warranty Returns

At Night Owl, our goal is to provide an incomparable experience for any technical support required. We provide more assistance than any other security brand by offering tri-lingual (English, Spanish and French) 24/7 phone support, 365 days a year. Additionally, our warranty process is 100% hassle-free. We believe customers with a defective product within the warranty period should not be saddled with shipping fees or overly complex requests. That's why we cover shipping both ways for any defective product under warranty.

America's #1 Wired Video Security Brand

With cutting edge technology and the consumers best interest at heart, Night Owl is the #1 Wired Security Camera Brand in the U.S.* Through innovation and the relentless pursuit of excellence we are excited to present our 3 Megapixel Extreme HD Security DVR. We are bringing innovation to the palm of your hands.
