L/R Lens Adjustment

Camera Door

Air Vents

Headstrap Attachment Point (x3)

Phone Tray

Inside the phone tray, place protective foam pads in the claw grip so that they avoid contact with your phone's buttons.

**Headphone Cord Pass-throughs**

Download/Start App

Scan a QR code or download a VR app from the Apple App Store or Google Play store. Start the app once it is installed and load your phone into the headset.

QR code is for example only and does not link to any VR apps.
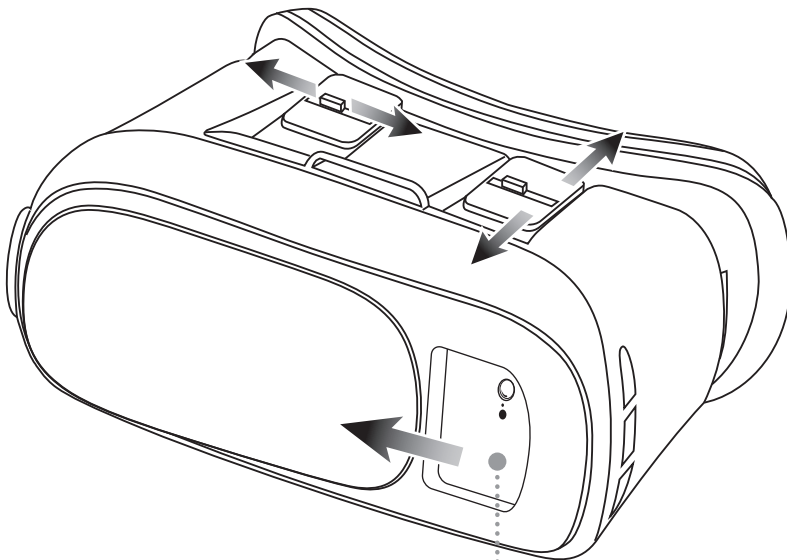

Load Phone into Headset

Be sure to orient your phone so that its camera is on the left side of the headset. Slide the tray out and place your phone in the tray, using the spring loaded claw mechanism to hold your phone securely in place.

Align the center line of the phone's screen with the tick mark on the top of the claw.

Adjust Headset

Put the headset on and adjust the headstrap and lenses to best fit your head.

45°–60°

Viewing Angle

When using the headset for an extended period of time, maintaining this angle will help reduce fatigue.

Cleaning

Use a cleaning cloth (included) as needed to keep the lenses clear. **Do not use harsh chemicals or solvents, as they may damage the unit and its parts.**

Camera Use

For apps that need to use your phone's camera, slide the camera door to the side.
