## Warning

---

1. Before use, please be sure to lubricate the blade for maintenance (blade lubricant is included in the product package). During use or charging, the body may get slightly warm, but it has no effect on the performance.
2. Do not use gasoline, alcohol, or thinner to clean the body, which may cause the body to discolor.
3. You can wipe the body with diluted soapy water.
4. Do not use this product in the bathroom.
5. Do not charge in an environment where the indoor temperature is lower than 0°C or higher than 40°C.
6. Please store it properly out of the reach of children.
7. When the display shows a battery level of 2% or lower during use, it is recommended to connect the device to a USB Type-C charger as soon as possible to prevent damage to the battery life due to being completely drained or nearly depleted.

# Product Specification

---

Working Voltage:	3.7V
Battery:	2000mAh
Charging Time:	Approximately 3 hours.
Continuous Working Time:	Up to 220 minutes on a full charge.
Input:	5V $\equiv$ 1A
Power:	5W

1. Turn off the pet clipper before inserting the USB Type-C charging cable into the clipper.
2. Insert the USB Type-C charging cable into the power socket, the charging power indicator light will turn on, and during charging, the 100% number in the LED display will flash (as the charging time and battery power increase, the number will increase), and the lightning icon will always be on. When the battery is fully charged to 100%, the number 100% will display "100" (always on), and the lightning icon will not be displayed.
3. After charging, unplug the USB Type-C charging cable from the power socket.

- Please charge in an environment between 5°C and 35°C.
- For the first use or unused for more than three months, fully charge the pet clipper before use.
  - To avoid affecting the service life of the product, after the battery is fully charged, unplug the USB Type-C charging cable from the power socket and do not let the clipper stay connected to the external power source for a long time.

**Warning:** Do not use non-rechargeable batteries in this product.

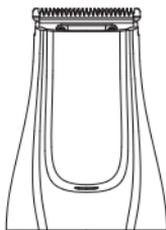

# Introduction to The Blade Head

---

## Pet Clippers Blade Head

45mm long pet clippers blade head is suitable for trimming the hair of the pet's whole body. When used with the limit comb, it can better control the length of the hair left, and you can control the length of the hair as you like. For beginners, with the limit comb cover, they can easily trim a flat hair shape without any hair trimming skills.

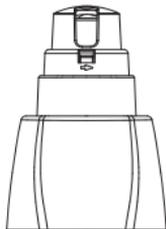

## Little Trimmer Blade Head

26mm long little trimmer blade head is suitable for multi-part trimming for large and medium-sized pets, such as feet hair, buttocks, and around the eyes and ears. It can also be used with the hair clippers blade head to finely trim various personalized shapes. Using it with a limit comb can better control the length of hair required for the shape. Because the head is smaller, for beginners, it is also safer and more convenient to use with the limit comb.

## Pet Pad Trimmer Blade Head

15mm long pet pad trimmer blade head is suitable for multi-part trimming for small pets, such as paws, legs, hips, tail, and around the eyes and ears. As its head is smaller, you will get a more fitted trimming angle.

## Nail Grinder

Mainly used for grinding nails.

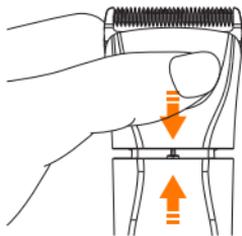

# How to Install & Disassemble Attachments

---

## 1. Detach the head:

Grip the body firmly with one hand, and with the other hand, slide upwards from the side to remove the head.

## 2. Installation:

Press down firmly to secure the component in place.

# Maintenance and Care

---

## 1. Cleaning

Use a cleaning brush to remove the hair in the pet clipper and around the blade.

## 2. Maintenance

After cleaning the blade, add a few drops of oil at the indicated points.

**Tip:** Before and after use, apply a few drops of oil to the blade to prevent it from becoming blunt, overheating, or making abnormal sounds.

**Blade Head Life:** The life of the blade head depends on the frequency and duration of use. If used twice a month for 20 minutes each time, the expected life of the blade head is 2 years. If properly maintained, the life of the blade head will be extended. When you find that the hair cutting effect is reduced, please replace the blade head.

## 3. Battery Use

The battery used in this machine is a rechargeable battery, model is 2000mAh lithium battery.

**Note:** Do not replace battery.

**Battery Life:** The life of the battery depends on the frequency and duration of use. If the battery is not used for a long time, it is recommended to charge the pet clipper at least once every three months to ensure the battery life.
