

T248: Thrustmaster's hybrid next generation of racing simulation for XBOX® and PC

- Premium, modern design: wheel with leather-wrapped, foam-filled rim and attractive central panel
- **T-HD** (Thrustmaster Hybrid Drive) next-generation hybrid Force Feedback system
- **T-RDD** (Thrustmaster Race Dashboard Display) screen for control of all aspects of the race
- **T-MP** magnetic paddle shifters for ultimate precision and clear activation feel
- **T3PM** magnetic pedal set with adjustable braking pressure force

KEY FEATURES

Premium, modern, versatile design:

- Interface with premium finish, perfect for all racing simulation styles
- Leather-wrapped, foam-filled rim for comfortable handling throughout long gaming sessions
- 4 customizable encoders putting a wide range of controls right at your fingertips
- 25 contemporary-style action buttons

T-HD (Thrustmaster Hybrid Drive) hybrid Force Feedback system:

- **Hybrid mechanism:** belt/gear drive system with optical reading of the wheel's position for powerful, smooth and flexible performance
- **48 W of constant power:** no decrease of Force Feedback with continuous use¹, and median power between that provided by the Thrustmaster TMX and TX racing wheels²
- **Adjustable Force Feedback:** change Force Feedback mapping on the fly, with 3 available presets (FFB 1, FFB 2, FFB 3) **for enhanced torque!**

T-RDD (Thrustmaster Race Dashboard Display) multifunctional screen:

- Control center offering a variety of different displays (speed, RPM, session time, LED display, etc.)³ and allowing for advanced configuration of the 3 Force Feedback modes via the encoders

T-MP (Thrustmaster Magnetic Paddles):

- 2 magnetic paddle shifters combining ultra-precise positioning measurement via H.E.A.R.T technology with super-clear "spring-style" activation feel — highly requested by members of Thrustmaster's racing community

T3PM pedal set included:

- Features H.E.A.R.T magnetic sensors without any potentiometers or friction — for precision that won't decrease over time, and an unlimited lifespan
- Adjustable pressure force with the included set of brake springs — 4 different configurations available, for use with a desk/table, cockpit or Wheel Stand Pro unit (not included)

Easy to update:

- The racing wheel features a USB-C port for firmware updates

Compatibility:

- Compatible with PC (Windows® 10).
- Compatible with XBOX® SERIES X|S and XBOX® ONE.

¹ Test carried out by Thrustmaster in November 2020 at 25°C ambient temperature.

² Tests carried out by Thrustmaster in November 2020 based on measurement of continuous Force Feedback on Thrustmaster TMX and TX racing wheels.

³ List of compatible games for PC and Xbox available on the Thrustmaster technical support website upon product launch, and regularly updated.

LOGISTICS INFORMATION

Product name	T248
Product code	4460182 4469026
EU barcode	3362934402754
U.S. barcode	663296422569
Inner carton (width x depth x height)	
Units/inner carton	
Inner carton weight	
Master carton (width x depth x height)	50,0x39,0x34,0
Units/master carton	1
Master carton weight	8200g
Double master carton (width x depth x height)	
Double master carton weight	
Capacity/20' container (units)	465
Capacity/40' container (units)	965
Capacity/40' HQ container (units)	1130
Product origin	Design in Europe and Canada Manufacture in China

BOX CONTENTS

T248 wheel and base
T3PM pedal set
48 W power supply + power cable
Attachment system + screws
USB cable
Allen key
Quick start guide
Warranty information flyer

PRODUCT MEASUREMENTS

WHEEL AND BASE

Dimensions	Width: 11 inches / 280 mm
	Depth: 11.8 inches / 300 mm
	Height: 11 inches / 280 mm
Weight	6 lb / 2,700 g

PEDAL SET

Dimensions	Width: 11.8 inches / 300 mm
	Depth: 14.6 inches / 370 mm
	Height: 8.3 inches / 210 mm
Weight	6.6 lb / 3,000 g

MARKETING INFORMATION

Availability	Pre-order : January 13 th Availability : March 15 th (excluding Asia)
