DYNAMIC RGB STRIP LIGHTS

FOR WHEEL WELL / UNDERBODY VEHICLE LIGHTING / POWER SPORTS

Customize cars, boats, golf carts, off-road vehicles and more! Bluetooth enabled so you can control the lights via the enLIGHT10 App by Stinger, choosing specific colors and dynamic modes.

Designed for the Elements

Thick weatherproof covering make these ideal for marine, power sports, RV, ATV, UTV or any application that needs to withstand the elements.

Super Bright LEDs

Colorfully illuminate your vehicle with bright powerful RGB lighting.

Perfect Fit

Can be mounted virtually anywhere.

Features:

- Endless color combinations and patterns
- Control your light show with the proprietary enLIGHT10 App
- HEIGH10® compatible so you can adjust your lighting directly from your infotainment system (SE-SXMHAR sold separately)
- IP65 waterproof rating for the most extreme environments
- Rugged watertight connections
- Good for interior or exterior configurations
