WIRING & ANTENNA CONNECTIONS (sold separately)

Visit metraonline.com for audio and steering wheel interface options.

Antenna adapter: Not required (2010-2013)

- 40-LX11 (2014-up)

TOOLS REQUIRED

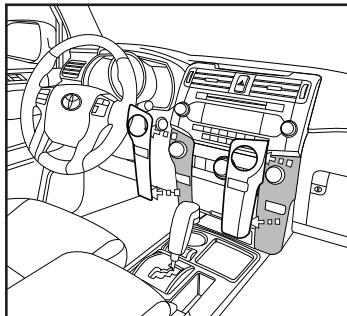

- Phillips screwdriver
- Panel removal tool
- 10mm socket wrench

Attention! with the key out of the ignition, disconnect the negative battery terminal before installing this product. Ensure that all installation connections are secure before cycling the ignition to test this product.

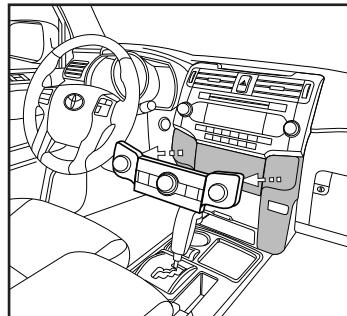

DASH DISASSEMBLY

1. Unclip and remove the (2) climate control knob trim panels. (Figure A)
2. Unclip and remove the climate control (Figure B)
3. Remove (4) 10mm bolts securing the radio. (Figure C)

(Figure A)

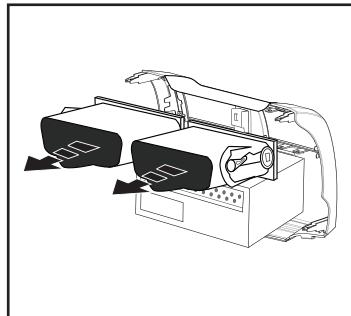

(Figure B)

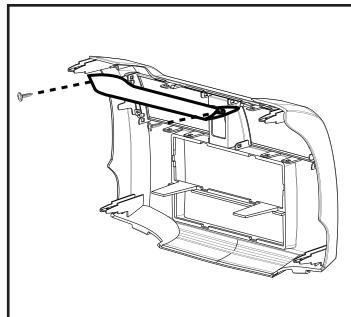

(Figure C)

DASH DISASSEMBLY (CONT.)

4. Unclip and remove the vents from the factory radio panel. (Figure D)
5. Remove the (2) Phillips screws securing the trim panel on the top of the factory radio panel. (Figure E)

(Figure D)

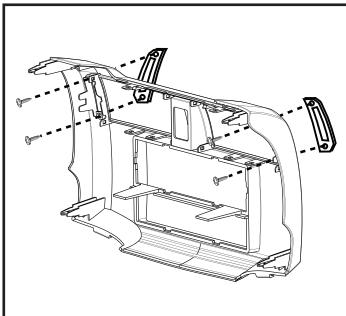

(Figure E)

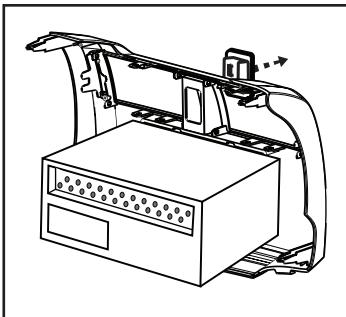

6. Remove the (4) Phillips screws securing the outer a/c vent control wheel trim pieces. 2020-up models will require the included **vent trim panels**. (Figure F)

7. Unclip and remove the hazard switch from the factory radio trim panel. (Figure G)

Continue to Kit Preparation

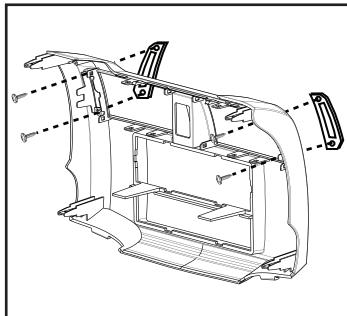

(Figure F)

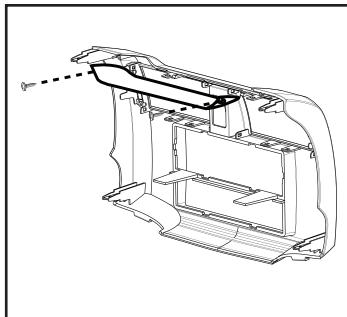

(Figure G)

KIT PREPARATION

1. Attach the outer a/c vent control wheel trim pieces to the **radio trim panel** using the factory hardware. Vent trim panels and (4) #4 x 1/4" Phillips screws have been provided for 2020-up models. (Figure A)
2. Attach the trim panel to the top of the **radio trim panel** using the factory hardware. (Figure B)
Note: (2) #4 x 3/8" Phillips screws are provided "Just in case".

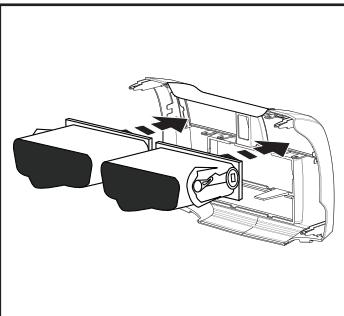

(Figure A)

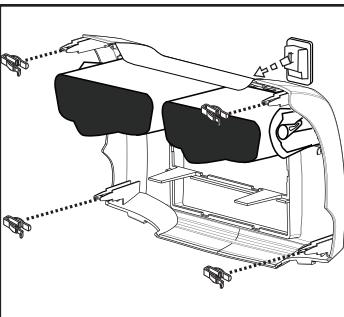

(Figure B)

3. Attach the a/c vents to the **radio trim panel**. (Figure C)
4. Snap the hazard switch into the **radio trim panel**. (Figure D)
5. Attach (4) **panel clips** to the **radio trim panel**. (Figure D)

Continue to Kit Assembly

(Figure C)

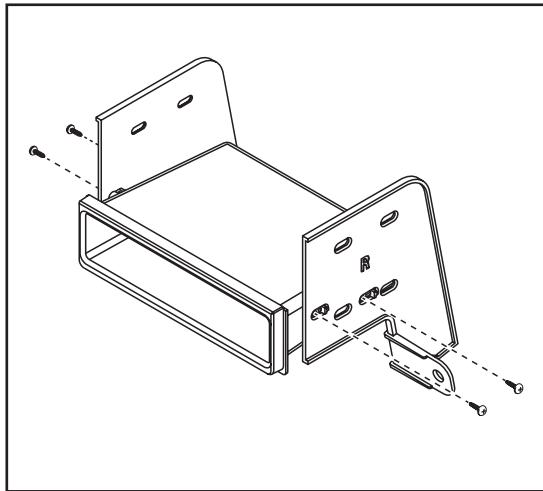

(Figure D)

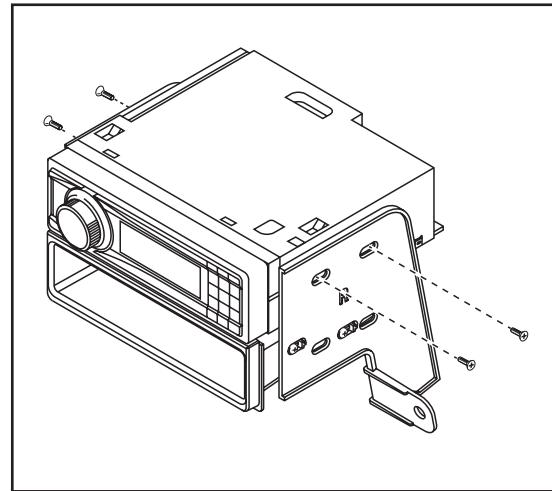

KIT ASSEMBLY

ISO DIN provision with pocket

1. Attach the **socket** to the **radio brackets** using the (4) supplied #8 x 3/8" Phillips screws. (Figure A)
2. Slide the radio into the bracket/pocket assembly and secure it using screws supplied with the radio, then secure the completed assembly into the dash opening. (Figure B)
3. Locate the factory wiring harness and antenna connector in the dash, and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/or AXXESS. Re-connect the negative battery terminal and test the radio for proper operation.
4. Snap the **radio trim panel** over the radio and reassemble the dash in reverse order of disassembly.

(Figure A)

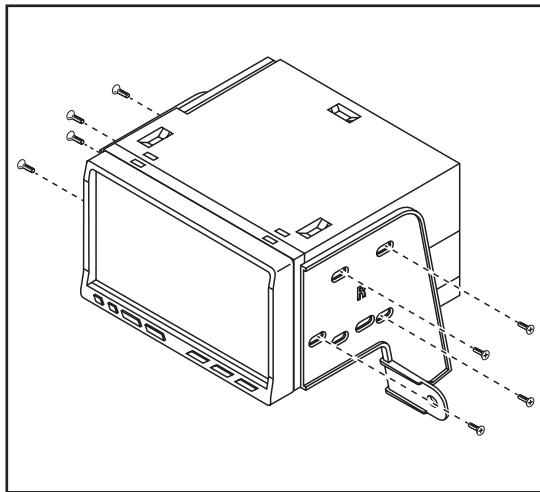

(Figure B)

KIT ASSEMBLY

ISO DDIN radio provision

1. Secure the **radio brackets** to the radio using the screws supplied with the radio. (Figure A)
2. Secure the completed assembly into the dash opening.
3. Locate the factory wiring harness and antenna connector in the dash, and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/or AXXESS. Re-connect the negative battery terminal and test the radio for proper operation.
4. Snap the **radio trim panel** over the radio and reassemble the dash in reverse order of disassembly.
