

QUICK SETUP GUIDE

Desktop Surge Tower

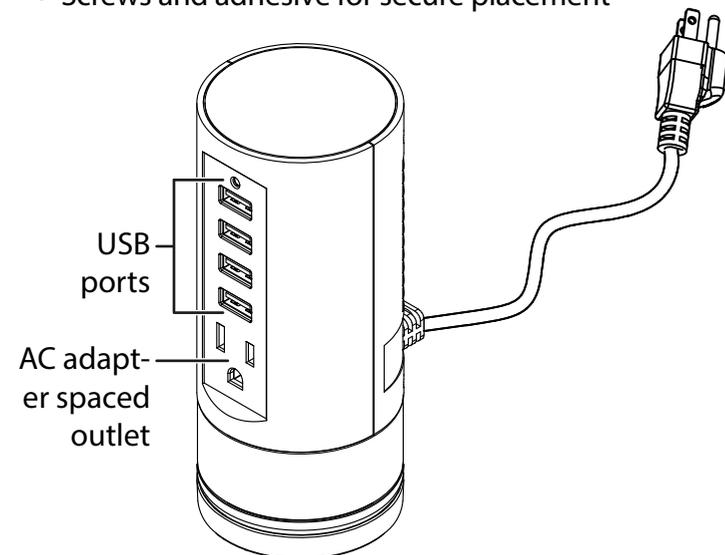

NS-PDTSU148

PACKAGE CONTENTS

- Desktop Surge Tower
- 5 ft. power cord
- Screws (2)
- Square foam tape
- Quick Setup Guide

FEATURES

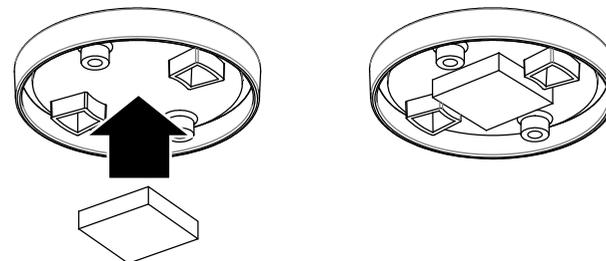

- AC outlet
- Four USB charging ports (4.8A total current)
- Compact design
- Screws and adhesive for secure placement

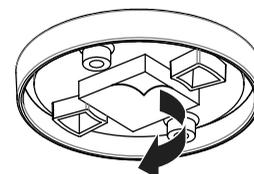

SETTING UP YOUR DESKTOP SURGE TOWER

Installing the tower with the mounting tape

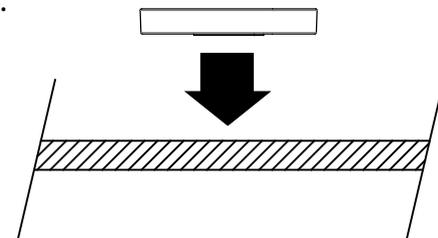

- 1 Tear the paper cover off of one side of the foam tape and attach the foam tape on the bottom of mounting base.

- 2 Remove the paper cover off the other side of the foam tape.

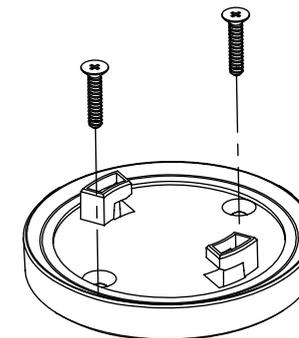

- 3 Attach the mounting base on the table. Proceed to step 4.

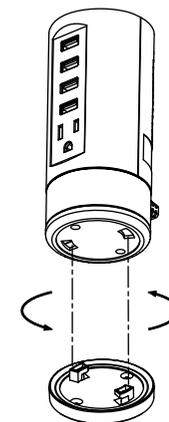

-OR-

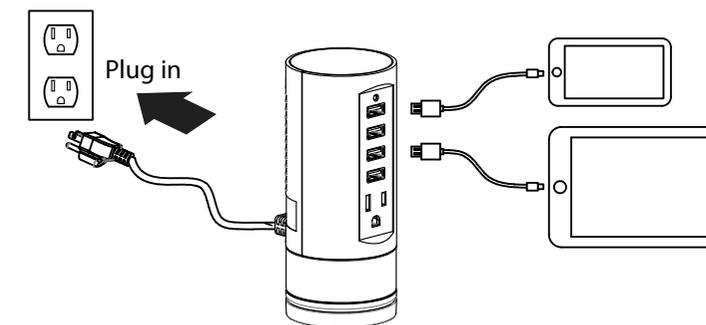

- 1 Use the screws to attach the mounting base to a table, desk, or other mounting surface.

- 2 Align the main unit with the retaining hooks on the base.
- 3 Rotate the main unit counterclockwise slightly to secure it to the base.

- 4 Plug the desktop surge tower into an AC wall outlet.

USING YOUR DESKTOP SURGE TOWER

Powering and charging an AC device

- 1 Plug an AC adapter into the AC outlet.
- 2 Connect your device to the output of the AC adapter.

Charging from the USB ports

- Connect your device to the USB charging port with a USB cable. The connected device begins charging.

SAFETY INFORMATION

- **CAUTION:** Do not install this device if there is not at least 30 ft. (10 m) or more of wire between the electrical outlet and the electrical service panel.
- TO REDUCE THE RISK OF ELECTRIC SHOCK - USE ONLY INDOORS.
- DO NOT “daisy chain”.
- DO NOT use with any aquarium equipment.
- Always ensure the product is unplugged from the electrical outlet before relocating or cleaning it.
- Keep the power cord and product away from heated surfaces.
- DO NOT use if correctly grounded outlets are not available.
- This device features internal protection that will disconnect the protective component at the end of its useful life, but will maintain power to the load – WHICH WILL BE UNPROTECTED. If you don't want your equipment at risk, follow the manufacturer's instructions for replacing the device.
- Use this product in the upright position.

LEGAL NOTICES

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
