FOR FORD BRONCO 2021+

Built tough and made specifically for Ford Bronco, this amplifier wiring kit makes it easy to install Audio Control, Stinger, Phoenix Gold or other amplifier under the seat in your Bronco.

Designed for Bronco

Designed to withstand harsh outside elements including water, dirt, dust and debris.

Better Performance

Add aftermarket amplifiers to upgrade your sound system.

Perfect Fit

Engineered to fit Ford Bronco.

Features:

- Fits 2021+ Ford Bronco
- Designed for front driver or passenger seat amplifier locations
- High Current OFC Copper 4 Gauge or 8 Gauge Power and Ground Wire
- Element ready jacket for extreme environments
- Pre-cut, terminated, and loomed wire for professional results
- Expandable X-Link fuseholder with custom mounting bracket
- 2 channel 4000 series directional twisted-pair RCA cable
- Wire ferrules, remote turn-on wire and hardware pack included
