Disclaimer: This Quick Setup Guide is intended as a general guideline to help you set up your TV. Images throughout this document are for illustrative purposes only and may differ from the actual product.
What's in the box

Your Hisense TV comes with the following items:

- TV
- remote control
- 2 base stands
- 4 screws
- Quick Setup Guide (this document)
- 1 set of AAA (1.5Vcc) batteries
- Important Safety Information and Warranty Card

IMPORTANT:
To prevent accidentally discarding items that came with your TV, be sure to check ALL of the foam in the carton box.

You will also need the following items (which are not included) to set up your TV:

- Wireless router (not included) for Internet connectivity
- Phillips screwdriver (not included) to secure the TV stand
- Not all connection cables are included. Some cables are sold separately to connect external devices to the TV
- Wall mount bracket and screws (not included) if you prefer to mount the TV on the wall

- Please check foam for accessories before discarding.
- Veuillez vérifier la mousse pour qu'il n'y ait pas d'accessoires avant de la jeter.
- Antes de desechar la espuma, asegúrese de retirar todos los accesorios.
Getting started

Step 1. Attach stand or mount
Before you start using your TV, attach your TV stand or mount it on the wall.

CAUTION:
• Disconnect the A/C power cord before installing a stand or a wall mount bracket.
• The LED display on your TV is fragile. Make sure the TV screen is not scratched or damaged by hard objects or from pressure.
• After the installation is complete, make sure the TV is steady on a table or firmly attached to a wall mount, before removing all protective film, if any.

Attach the TV stand
To attach the TV stand legs to your TV:
1. Carefully place your TV face down on a clean, soft and flat surface.
2. Insert the TV base stands into the bottom slots on your TV.
3. Use the screws provided to secure each leg tightly.
Attach the wall mount bracket (not included)

Before you begin the third-party manufacturer instructions, be sure to do the following things:

1. Place the TV face down on a clean, safe and cushioned surface.
2. Remove the TV stand if you have already attached it.
3. Place spacers (not included) in the corresponding bracket holes.

**CAUTION:**

- Follow instructions provided with the wall mount bracket. If it is not correctly mounted, the TV may fall and cause property damage or personal injury.
- When you attach the mount, be sure to use spacers (provided by the third-party manufacturer) between the TV and the bracket.
- To prevent internal damage to the TV and to ensure it is mounted securely, be sure to use fixing screws (not included) that are 9.5 - 11.5 mm in length when measured from the attaching surface of the rear cover.

<table>
<thead>
<tr>
<th>Wall mount hole pattern (mm)</th>
<th>100 × 200</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wall mount screw size (mm)</td>
<td>M6</td>
</tr>
</tbody>
</table>

- We do not recommend hanging the TV on a slanted wall, and when wall mounting make sure your television remains parallel to the wall and does not lean forward.

**NOTE:**

- If you have additional questions, please contact the wall mount manufacturer or the retailer from which you purchased the TV.
- The diameter and length of the screws differ depending on the wall mount bracket model.
Step 2. Connect devices to your TV

Check to ensure that you have connected right cables for right ports securely. Loose connections can affect the quality of the picture image and color.

Insert the batteries

1. Take off the back cover to open the battery compartment of the remote control.
2. Insert two AAA (1.5V) size batteries. Make sure to match the (+) and (-) ends of the batteries with the (+) and (-) ends indicated in the battery compartment.
3. Restore the battery compartment cover.

Important Information about the remote and batteries

- Discard batteries in a designated disposal area. Do not throw them into a fire.
- Remove old batteries immediately to prevent them from leaking into the battery compartment.
- If you do not intend to use the remote control for a long time, then remove the batteries.
- Battery chemicals can cause a rash. If the batteries leak, clean the battery compartment with a cloth. If chemicals touch your skin then wash it immediately.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (NiCd, NiMH, etc.) batteries.
- Do not continue using the remote if it gets warm or hot.
- Call our Support Center immediately on the support website.

**BUTTON** | **DESCRIPTION**

**NOTE:** Buttons listed here are for reference only. Actual remote control models may vary.
Remote Control Range Information

- The remote control can work at a distance of up to 26 feet (792.5 cm) in front of the TV set.
- It can work at a 30 degree horizontal or vertical angle.

Program Your Universal Cable or Satellite Remote Control to Operate Your New Television (only for USA)

If you would like to program your other household remote controls to your new television, please refer to the User Manual supplied by your Cable or Satellite provider. It should include instructions on how to program their remote to your television. A list of codes for the most common Cable and Satellite providers are listed below. Use the code that is associated with your Cable or Satellite provider (if applicable).

**DIRECTV**......0178, 10178, 10019, 10748, 11314, 11660, 11710, 11780, 12049, 10171, 11204, 11326, 11517, 11564, 11641, 11963, 12002, 12183

**Time Warner Cable**......386, 0178, 10178, 400, 450, 461, 456, 0748, 1463, 0463, 10463

**Comcast**......0178, 10178, 10463, 11463, 10748, 11314, 11660, 10171, 11204, 11326, 11517, 11641, 11780, 11785, 11892, 11963, 12002

**Cox Communications**......0178, 10178, 1326, 1463

**Dish Network**......505, 627, 538, 720, 659

If the code associated with your Cable or Satellite provider is not listed, does not work or you cannot locate the instructions to program your remote, call your local Cable or Satellite provider’s customer service center. If your Cable or Satellite provider does not have a code available, please contact us at one of the phone numbers on Page 2.

Using Your Cable Set-top Box or Satellite Receiver Remote as a ‘Universal’ Remote

If you prefer to use your Cable Set-top Box or Satellite Receiver Remote as a ‘Universal’ Remote, then visit the Support page to view a list of the codes.
Step 4. Power on the TV
Plug the power cord into a power outlet.
Your TV will display a launch screen showing the Hisense logo.

Step 5. Complete the first-time setup
The first time you turn on your TV, there is a guided setup to make it easy to connect your TV to the Internet and complete the setup of your TV.

Step 6. Establish a network connection
1. Press the [Home] button on the remote control, and select the icon to enter into the Settings menu.
2. Select Network > Network Configuration.

Establish a wireless network connection
The TV can directly receive network signals via wireless router. Before you establish a wireless network connection, turn on your Wi-Fi.

1. Choose Wireless among Connection Select modes, and the list of networks will display on screen automatically.
2. Select a wireless network from the list, and enter password.
3. If you couldn’t find your network, select Refresh to get the latest list. Alternatively, you can select Add to input a Wi-Fi name, select the type of security mode, and enter password.

Close the network connection
Turn off your Wi-Fi. The network connection will close.
Step 7. Enjoy your TV!

Now that you’ve completed the first-time setup, your Home screen is your starting point for using your TV. Your Hisense TV provides a variety of entertainment options, so you’ll always find something new. Use your TV to watch live channels, access video on demand to watch movies, and much more.

Press the Home button on your remote to get started.

Text-to-Speech (TTS) and Video Description functionalities on TV

Text-to-Speech (TTS) and Video Description can help you to navigate the menus on the screen and hear an audio description of relevant programs.

Text-to-Speech can convert written text into voice text to help visually impaired people listen to the information they are unable to read. In addition, the Video Description has an audio narration added to certain programs that will describe the main visual elements which visually impaired users may not be able to see.

Follow the steps below to enable the functions:
1. Press the menu button on your remote to access the Menu.
2. Next, select Settings to enter the Settings Menu.
3. Select Accessibility > Narration or Voice Guide to turn the Narration or Voice Guide ‘On’ or ‘Off’.

When Voice Guide is turned On, then the contents of each menu displayed can be broadcasted out.

When Narration is turned On, then you can hear the introduction of relevant programs.

## Troubleshooting

If you are having trouble with your TV, first try turning it off and on again. If this does not fix the problem, check the tips in the following table. If your problem is not listed in the following table, then contact us at one of the phone numbers on Page 2.

<table>
<thead>
<tr>
<th>Issues</th>
<th>Possible solutions</th>
</tr>
</thead>
<tbody>
<tr>
<td>No sound or picture</td>
<td>• Check if the power cord is plugged into a powered AC outlet.</td>
</tr>
<tr>
<td></td>
<td>• Press the Power button on the remote control to activate the unit from ‘Standby’ mode.</td>
</tr>
<tr>
<td></td>
<td>• Check to see if the LED light is on or not. If it is, then the TV is receiving power.</td>
</tr>
<tr>
<td>I have connected an external source to my TV and I get no picture and/or sound.</td>
<td>• Check for the correct output connection on the external source and for the correct input connection on the TV.</td>
</tr>
<tr>
<td></td>
<td>• Make sure you have made the correct selection for the input mode for the incoming signal.</td>
</tr>
<tr>
<td>When I turn on my TV, there is a delay for a few seconds before the picture appears. Is this normal?</td>
<td>• Yes, this is normal. The TV is initializing and searching for previous setting information.</td>
</tr>
<tr>
<td>The picture is normal but there is no sound</td>
<td>• Check the volume settings.</td>
</tr>
<tr>
<td></td>
<td>• Check if 'Mute' mode is set to On.</td>
</tr>
<tr>
<td>Sound but no picture or black and white picture</td>
<td>• If the picture is black and white, unplug the TV from the AC outlet and replug it after 60 seconds.</td>
</tr>
<tr>
<td></td>
<td>• Check that the Color is set to 50 or higher.</td>
</tr>
<tr>
<td></td>
<td>• Try different TV channels.</td>
</tr>
<tr>
<td>The sound and/or picture is distorted or appears wavy</td>
<td>• An electric appliance may be affecting the TV. Turn off any appliances that are nearby and move it farther away from the TV.</td>
</tr>
<tr>
<td></td>
<td>• Insert the power plug of the TV set into another power outlet.</td>
</tr>
<tr>
<td>The sound and picture is blurry or cuts out</td>
<td>• If using an external antenna, check the direction, position and connection of the antenna.</td>
</tr>
<tr>
<td></td>
<td>• Adjust the direction of your antenna or reset or fine tune the channel.</td>
</tr>
<tr>
<td>A horizontal or vertical stripe appears on the picture and/or the picture is shaking</td>
<td>• Check if there is an appliance or electric tool nearby that is causing interference.</td>
</tr>
<tr>
<td>The plastic cabinet makes a &quot;clicking&quot; type of sound</td>
<td>• The 'click' sound can occur when the temperature of the television changes. This change causes the television cabinet to expand or contract, which makes the sound. This is normal and the TV is OK.</td>
</tr>
<tr>
<td>The remote control does not work</td>
<td>• Confirm that TV still has power and is operational.</td>
</tr>
<tr>
<td></td>
<td>• Change the batteries in the remote control.</td>
</tr>
<tr>
<td></td>
<td>• Check if the batteries are correctly installed.</td>
</tr>

Certification and Compliance

FCC Notice

This device has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user’s authority to operate the equipment.

The Wi-Fi Module complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

This device complies with Industry Canada’s licence-exempt RSSs. Operation is subject to the following two conditions:

1. This device may not cause interference; and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Declaration of Conformity

Trade Name: Hisense
Model: 40H5G / 40A4GV / 40A40GV / 40A40GMV / 40H55G / 40A4HV / 40A4070GMV
Responsible Party: Hisense USA Corporation
Address: 7310 McGinnis Ferry Road, Suwanee, GA 30024
Telephone Number: 678-318-9060

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
