

DISCOVER THE ROSETTA STONE DIFFERENCE

Trusted around the world for more than 25 years, Rosetta Stone helps you speak like a local. Now you can bring its powerful learning to homeschool.

Rosetta Stone is different. It teaches a language the natural way, by associating words, images, and sounds—without translation. Based online, you can take lessons anywhere.

A PROGRAM BUILT FOR STUDENTS

With an intuitive student experience, the Rosetta Stone learning process is seamless from the first lesson.

- Learn core language skills: speaking, reading, and listening.
- Practical training: Teaches children to think and speak on their feet with everyday situations.
- Speak accurately: Our patented speech-recognition technology—TruAccent®—checks your child's speech 100 times per second, comparing his or her voice with locals' pronunciations, providing an authentic accent.

[FACTSHEET »](#)

LANGUAGE LEARNING THAT WORKS

Full access:

Use the full program from the start.

TruAccent® technology helps create a native accent for your child.

Our immersive software helps boost learning at home.

Take language lessons anywhere.

Choose from more than 24 languages.

— NEW FOR 2018 —

Reporting Tools

Track your child's progress and print reports.

Phrasebook

Listen to and learn to speak key phrases used in real-life situations.

Audio Companion®

Extend your child's learning experience to where "speaking" is not possible or desirable.

Stories

Allows children to perfect their pronunciation by reading a full story aloud and comparing their voice to that of a native speaker.

Web Application

Our new look and feel improves student usability through better navigation and parity.

Native iOS and Android

Mobile Experiences:

Children can utilize the Rosetta Stone experience from a variety of mobile devices and tablets.
